

Specialized Underwater Services

MVDP provides specialized military quality divers:

1. 6 man teams; the US Navy, U.S.C.G., and U.S.A.C.E. minimum standard.
2. Real time audio & video documentation.
3. EM-385-1-1 & USN Rev.7 Safety Guidelines
4. Fair affordable cost platform. Every project is different, however our baseline never increases unless the risk does. Regardless of who our client may be.
5. Construction, Demolition, Repair, Inspection, Dredging & Salvage.

Facts you the business public should know:

“Deception and misdirection in this business is unethical, rampant, and in all cases illegal. “

{Example: If it were legal under current O.S.H.A. (CFR. 29 Subpart T – 1910.410) Regulations for SCUBA (recreational) divers to work for pay – which it is not.}

1. A recreational diver’s basic training lasts about 2 weeks, and equipment at a cost of about \$900.00.
2. PADU, NAUI and like agencies do **NOT** train working divers (and never have). Ask for proof of commercial training i.e. a diploma.
3. A recreational diver operates in a window of less than 70 percent of a Working Divers capability. Few ever venture to depths below 50’ for 30 – 60 minutes.
4. A Commercial Divers basic training; \$25,000.00, specialized equipment; thousands in one diver’s lifetime.
5. This does not include required CPR, Hazwopper, Defib, Hyperbaric, T.W.I.C. & craft status required documents that must remain current annually. Personal expenses.
6. A Commercial Divers average working depth is often 100-300 f.s.w. (feet of sea water) at a minimum of 4 – 14 hours without a single lost working minute (per man hour). Commercial Diving & “Commercial SCUBA” modes require the same Personal Protective Equipment.

Dollar for Dollar the only Choice is M.V.P.D.!

Founding Member of the National Association of Working Divers

We are a proud Union supporting company.

We train only to U.S. Navy & N.E.D.U. approved standards which exceed all current civilian training & past or present A.D.C.I. Training or O.S.H.A. regulations.

Recreational SCUBA is NOT and has never been a legal, insurable, or accepted alternative choice to a Commercial Dive Team.

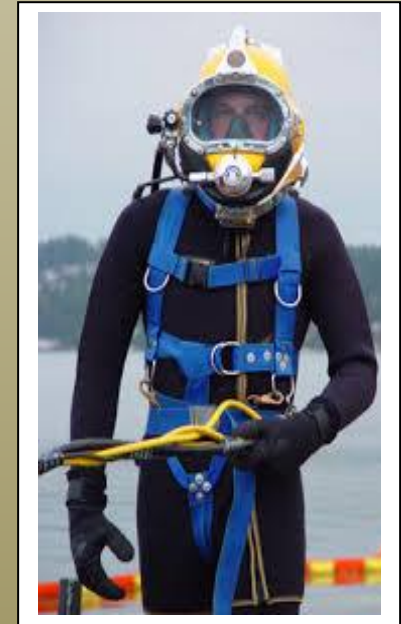

We are American Divers

6 Men
No Excuse, No Exception, Ever!

THIS IS “JOHN”, A “RECREATIONAL” DIVER ALLOWED TO DIVE ONLY FOR SPORT.

THIS IS “JOE” A WORKING DIVER.

H “JOHN”, DIVING IS HIS JOB! ¶
Often confused with recreational diving, commercial diving is one of the most dangerous occupations in the world. Special Credentials are required to work for pay, only Commercial Divers have them.

Every year inexperienced & experienced SCUBA divers foolishly manage to pass themselves off as “Commercial Divers”. This practice is *illegal and often fatal*. There is also a *legal* difference in training.

You Deserve to Know the Difference!

Mil-Vet Professional Divers LLC

is a Multifaceted Underwater Marine Operations group.

Most (95%) of our Divers are trained Military Veterans, and each specialist’s in their underwater crafts. Unlike our civilian counterparts their oaths as service men & women never expire, nor does their desire to serve.

We are a living representation of our history, culture & our service to our country as we continue serving our community and others.

Credentialed Working Divers can and do use SCUBA equipment to perform “some” emergency tasks but the practice is not common and only used to save lives.

MVPD is made up of men & women from all branches of Military & Civil Service. Our skills above and below the surface are unequalled anywhere divers currently operate.

MVPD utilizes only United States Navy Diving, U.S.C.G. Diving & U.S.A.C.E. EM-385-1-1 Training & Safety manuals. These supersede all current civilian O.S.H.A. & ADCI training & safety guidelines being taught or practiced across the country today. If the N.E.D.U. does not approve it; we do not attempt, practice or teach it.

Millions of your tax dollars have been spent developing the procedures and training military divers & M.V.P.D. uses. No civilian run diving operation in the country has a safer more cost effective Dive Plan than M.V.P.D.

Commercial Divers are bound to the letter of the law – recreational divers are not.

Services

All industrial skills tradesman provide above the water; M.V.P.D. divers perform in water & on land, without regard to weather. We deliver what our clients need, when & where they need it rain or shine in calm waters or frozen lakes & seas 365 days a year. At an unbeatable rate.

MVPD is a D&B, SAM, GSA and Vet-Biz registered small business, owned by a Service Disabled Veteran & Certified Working Commercial Diver.

Location = Savings & Community Prosperity

M.V.P.D. is based in Menominee County, MI in the town of Stephenson and currently the only registered commercial diving service in the western Bay Region. Local services create huge project savings as our divers & equipment are not “imported” from other states reducing or eliminating housing & travel expenses.

Using local services ensures 100% material, equipment rental, fuel, meals, & lodging revenue flows immediately back into our neighbors businesses.

Hours of Operation

M.V.P.D. Office Hours are from:
0500-1900 (5a.m. – 7p.m.) Monday –Saturday All
Emergency Services 24/7 365 Days A Year
