

Instruction manual for installing EzyFit Alfresco Custom DIY blinds:

Step 1: Unpack the Contents

- Carefully open the package containing the EzyFit Alfresco blinds.
- Check if all the necessary components are included, such as blinds, brackets, screws, and the installation guide.

Step 2: Inspect the Blinds

- Carefully examine the blinds to ensure they are the correct size and that the fabric and components are in good condition.
- Take note of any special features mentioned in the order, such as motorization.

Step 3: Prepare the Installation Area

- Clear the area around the window or opening where the blinds will be installed.
- Ensure there is enough space for you to work comfortably and safely.

Step 4: Locate and Mark Installation Points

- Using a measuring tape, locate and mark the points where the brackets will be installed.
- Follow the specific instructions provided with your blinds on where to position the brackets.
- Ensure the marks are level and aligned properly.

Step 5: Install Brackets

- Depending on the specific installation method, use screws, brackets, or other hardware provided with your blinds to securely attach the brackets to the mounting surface.
- Ensure the brackets are level and aligned with the markings made in the previous step.
- Double-check that the brackets are installed at the correct distance apart to accommodate the width of the blinds.

Step 6: Ready the Blinds

- Before hanging the blinds, ensure the fabric is clean and free from any wrinkles or folds.
- If necessary, carefully steam or press the fabric to remove any creases, following the fabric manufacturers' recommendations.

Step 7: Hang the Blinds

- Lift the blinds to fit them into the brackets and make sure they are securely latched.

- REFER TO OUR HOW TO ROPE ALFRESCO BLINDS VIDIO TUTORIAL IF YOU ARE UNSURE ON HOW TO ROPE YOUR CUSTOM ALFRESCO BLINDS.

Step 8: Test the Operation

- Once the blinds are hung, test the operation to ensure they open, close, and adjust smoothly.

Step 9: Final Adjustments

- Make any necessary adjustments to the blinds if they are not sitting level or aligned properly.
- Ensure the blinds are operating smoothly and providing the desired coverage.

Congratulations! You have successfully installed your EzyFit Alfresco custom DIY blinds. Enjoy the enhanced functionality and aesthetics they bring to your space.
