

SAFER, CLEANER, & MORE EFFICIENT

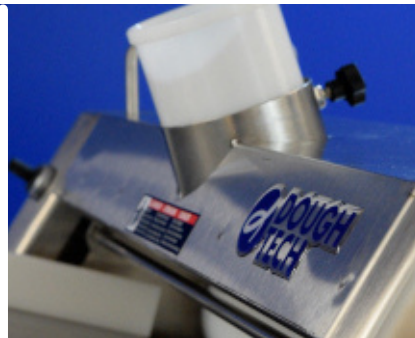

The AM315- 6 has all the benefits and features of the AM315 but with an extended moulding area. The increased moulding time helps form the dough to the desired length, which in turn makes a more uniform final product.

Dough Tech's commitment to safety and sanitation can be found in many areas throughout our equipment. such as our removable belt technology that allows the operator to remove the conveyor belt for frequent cleaning. Dough scrapers can be removed in seconds for easy sanitation and infeed hoppers are all equipped with industry-leading safety switches.
