

## ***The Birds & The Bees***

*'Let me tell you 'bout The Birds & The Bees, The Flowers & The Trees.....Dean Martin*

After many years travelling this amazing world with my Husband and Son, I decided to follow my dreams and set out on my journey as a UK trained Celebrant here in the U.A.E. We have lived in the U.A.E since 2011 after experiencing life in Azerbaijan, Spain, Oman, Cyprus, Northern Ireland, UK, etc....

I love people!

There is no getting away from the sheer indulgence of meeting people and hearing all about their stories and experiences. Everyone is unique and has their own take on life and I especially love hearing their 'love story' of how they got together and what their hopes and dreams are for their future.

Having lived in over 9 Countries myself, the diversity of cultures and beliefs that come together under that beautiful umbrella called Love has inspired me to follow my dream and help people create ceremonies for special occasions such as Wedding Celebrations, Vow Renewals, Commitment Ceremonies and Naming Ceremonies.

The Birds & The Bees is my own creation based upon how similarly those two tiny creatures work on this planet. They work tirelessly to achieve a very similar role - a bit like two people joined who are committing to their futures together.

Your Wedding Day is such a personal, exciting experience for you both and if you are choosing a Celebrant to conduct your Ceremony then you have the opportunity to have the Ceremony wording 100% as you would like it – this is your day!

Relationships take work and there is nothing more rewarding than looking back over the years at how you change and blossom throughout those years, just like nature itself.

So, perhaps a Vow Renewal is something to consider after a number of years of marriage. Life shapes you and things change – this is a beautiful opportunity to re-cement that Love you have nurtured over the years with promises to nurture for the rest of your future together. Perhaps a great opportunity to show your Children what your marriage means to you and them too.

I am a true believer that there is someone for everyone out there and that Love itself needs cherished, nurtured and often just put on hold when time and space is required.

Commitment is a strong word - Lets create strong memories to go with the word by contacting me for a chat and see if I would 'Bee' the right fit for you.

*There is no charge for the first consultation – this is where we find out if we make the right connection to work together on such a special time.*
