Basmati Rice

The Basmati Rice we provide is extra-long, thin, superfine grains that are greater than 4.3 mm in length and width. It has a sweet flavor, a strong fragrance, a smooth feel and a delicate curve. Indian basmati rice is the least breadth-wise rice for cooking.

The rice we sell is free from some sort of impurity or foreign matter. It is available in excellent packs that are resistant to moisture and can easily hold the scent for a fair period of time. This variety of rice is cultivated in the North of India.
