

Systems Visions, LLC

Title:

Senior Engineer I/II – Senior level microelectronics process engineer position.

Company intro:

SYVI was originally founded in 1997 in Auburn, Alabama as Systems Visions to provide electrical and IT consulting services. From 2008-2018, we operated as Systems Visions, LLC in Melbourne, Florida focused on research, engineering and technology development. In 2019 Systems Visions, LLC relocated back to Auburn, Alabama and rebranded as SYVI to focus on technology and product development for both corporate and government customers. SYVI delivers cutting edge research, development, products and services in the aerospace and defense markets.

Job description:

We're looking for a full-time senior level microelectronics process engineer. The ideal candidate is someone who has a Ph.D. in a related engineering field and has 1-3 years of experience in the workplace. In lieu of a Ph.D., a M.S. degree in a related engineering field and 3-5 years of industry experience is also acceptable.

As a small business, SYVI employees work across numerous disciplines to push the state-of-the-art. Engineers support design, simulation, fabrication, test and ultimately production of the technology developed to support our customers. Depending on education and experience, the starting salary ranges from \$90,000 to \$120,000 per year. You must be legally authorized to work in the US. SYVI uses E-Verify to validate work authorization.

Top benefits or perks:

As a team member at SYVI, you will receive:

- Benefits: Health care, dental, vision, life insurance
- Paid time off
- Flexible work schedule

Location:

SYVI is located in the Auburn Center for Developing Industries in Auburn, Alabama.

Contact/application information:

To be considered for our open positions, please submit your resume/CV with a cover letter indicating the position of interest to hr@sysvis.com. If we accept your application, we'll be in touch to schedule an interview. We look forward to hearing from you.
