

Systems Visions, LLC

Title:

Process Technician – Junior to mid-level process technician.

Company intro:

SYVI was originally founded in 1997 in Auburn, Alabama as Systems Visions to provide electrical and IT consulting services. From 2008-2018, we operated as Systems Visions, LLC in Melbourne, Florida focused on research, engineering and technology development. In 2019 Systems Visions, LLC relocated back to Auburn, Alabama and rebranded as SYVI to focus on technology and product development for both corporate and government customers. SYVI delivers cutting edge research, development, products and services in the aerospace and defense markets.

Job description:

We're looking for full-time junior to mid-level process technician. The ideal candidate is someone who has an Associates degree with 2-5 years of experience in the workplace. As a small business, SYVI employees work across numerous disciplines to push the state-of-the-art. The process technician will support product fabrication and quality control while maintain laboratory and production equipment. The technician will work closely with engineers to support the design, fabrication, testing and production of technology developed at SYVI. Depending on experience, the starting salary ranges from \$42,000 to \$52,000 per year. You must be legally authorized to work in the US. SYVI uses E-Verify to validate work authorization.

Top benefits or perks:

As a team member at SYVI, you'll enjoy:

- Benefits: Health care, dental, vision, life insurance
- Paid time off
- Flexible work schedule

Location:

SYVI is located in the Auburn Center for Developing Industries in Auburn, Alabama.

Contact/application information:

To be considered for our open positions, please submit your application to hr@sysvis.com. If we accept your application, we'll be in touch to schedule an interview. We look forward to hearing from you.
