

Did You Know, Covid Vaccines Have Alarming Short Term & Zero Long Term Safety Data?

Did you know, many of your federal employee co-workers and their family members have suffered adverse events and injuries from the Covid vaccines and boosters?

The number of
**DEATHS & ADVERSE
REACTIONS**
reported after the COVID
vaccine is staggering.

VAERS*, the US Government database that tracks vaccine reactions show a total of **1,371,474 adverse reactions** and **29,981 deaths** following the COVID vaccine (as of 8/9/22). This is **more reports than from all previous vaccines combined.**

Did you know, you are not alone, there is a local support group for federal employees and their family members who have been injured by the Covid vaccines and boosters?

For information on COVID vaccine injury support, go to [REACT19.org](https://react19.org)

[*VAERS is the Vaccine Adverse Event Reporting System put in place in 1990. It is a voluntary reporting system that has been estimated to account for only 1% of vaccine injuries.]
