

# Did You Know, Being Vaccinated/Boosted for Covid Does NOT Protect Others?

**Did you know**, covid vaccines were sold to the unsuspecting public as stopping infection & spread & were promised to be a dead end for the virus by preventing the vaccinated from infecting others, but that was never true?

**Did you know**, the Covid vaccines & boosters do NOT stop infection and spread, so why were they mandated for federal employees in the first place & why is the federal government in court right now suing to reinstate mandates for Covid vaccines?

**Note:** A temporary injunction is in place while Feds for Medical Freedom court case is being heard on Sept 13, 2022, preventing the federal government from mandating covid vaccines for employment.
