Money Management & Budgeting

In this Presentation

Here's what we'll cover:

What is a Budget
Why You Need One
How to Budget in Real Life
Real Stories from Athlete Mistakes

Without Budgeting

- People have no idea how much money is in the bank and could cause them other financial burdens i.e Overdraft fees
- People tend to overspend, not saving money for an emergency
- No knowledge as to where your money is going how much you consume (use), rate of consumption, how much you should be spending/saving

With Budgeting

- People have more control and access over their money.
- People have less stress about how they navigate their day to day lives
- Plans allow for easier navigation for long term planning like saving for a home, new car, vacation, etc.

Real Life: Risks & Rewards

A Sample Budgeting Tool

Here are some of the most common items one budgets for during post-collegiate years. These will vary on things like, will you have a room mate to split fees with? Will you stay at home and save before launching out into the world? Will you rent or buy your vehicle? How much debt will you be in once graduating? Student Loans?
