| **HDT** HEAVY DUTY TILE

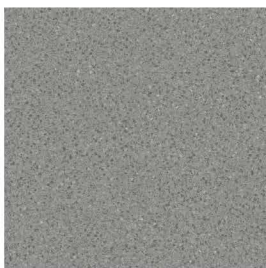

Heavy Duty Tile | The VCT Alternative

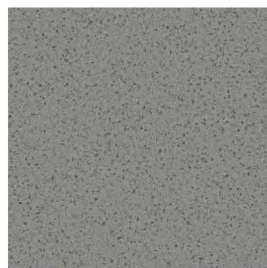

Heavy Duty Tile (HDT) is constructed of a heterogeneous polyvinyl system. The surface utilizes a hardened textured ceramic finish designed to absorb light which reduces the visibility of abrasions, scratches, and other types of damage. The edges of the tile are laser cut to fit so tightly that the materials appear seamless. Most importantly, the material requires no applied polishes, finishes, or sealers.
