## HOW YOUR DONATION HELPS

Nearly **1 in 5** children in the United States are living with dyslexia. Left untreated, dyslexia can be devastating—leading to academic problems, anxiety, depression, and even delinquent behavior. While dyslexia cannot be cured, it can be overcome. At CDC-M, we empower children with dyslexia to reach their potential by providing them specialized tutoring services. Because we believe *all* children deserve the opportunity to learn in a way that meets their needs and enables them to succeed, regardless of their family income level, we provide our tutoring services free of charge. Ours is the only program in the community that does this. And results show that our approach works: **within two years, 95% of children in our program are reading and writing on grade level.**

Quoting a parent:

***“This program has changed our son’s life. He can now read and reads books that used to be impossible for him. His CDC tutor has made a huge difference in not just his reading, but also in his confidence and his life skills. Thank you so very, very much. Without you, our son would be lost.”***

**Thank you** for making a difference in the lives of children in our community.

*The Children’s Dyslexia Centers are a Scottish Rite Charity. Madison has one of 43 centers and provides services to children in the greater Madison area. All services provided by the Children’s Dyslexia Center - Madison are free of charge, without regard to race, gender, creed, sect, or Masonic affiliation.
