# Puppy Essentials

Four paws and a wagging tail has arrived home and now you wonder what you need to do to make it easy for your new furry one to adapt to their new family.

**Here are some tips that will help you and your pup:**

## Start with a Small Puppy-Proofed Area

Select an area of your home with enough space for your puppy to walk around and rest. A playpen will help you limit the access the puppy can have to the rest of the house.

Puppies are babies that are learning as they interact with you. In their playpen, they can be comfortable and explore without getting into something that has not been puppy proofed. Letting them roam free around the house can overload their senses and be scary. Start with a puppy-proof area and work your way up from there.

## Potty Training

House training is one of the hardest things to teach your puppy. Start it off as soon as you get home by taking them to their outside potty place.

If your puppy is too distracted with all the new smells

and objects in your backyard, toss some treats on the grass and let them search for them. Sniffing the grass while looking for treats will help them go potty. Be patient and when they go potty outside, praise them, and reward them with a treat. They'll soon catch on and be excited to go outside to do their business!

## Where should my puppy sleep?

The first night of your puppy at home is the first time they have been away from mom and littermates. For the first few nights, your puppy will need time to adjust to being without their mom. Wherever you decide to settle them in your house, it's a good idea to spend the first few nights in the same room with them so they don't wake up in a panic because no-one is there.

The recommended space for your puppy to sleep should be a crate. You can use a blanket or bedding to make it cozier. I am a fan of giving my pups, during those first weeks, a stuffed dog toy with a "Real-Feel" heartbeat called, The Original Snuggle Puppy. It provides comfort and helps during that transition when they are adjusting to their new home.

Your house is their new world, and their mouth is like our hands and they use it to explore; just like a baby they can easily get into things. Be sure to have everything they might get into put away while they learn what is a toy and what is not.

Remember they are learning and growing with you, so training is key to establish a line of communication between you and your dog. Training gives you the tools to ask your puppy to perform the desired behaviors and teach your puppy how to correctly respond.

# THE SIZZLING TRUTH!

Summer is finally over but the damage to your roof may still remain.

When the temperature stayed above 100 degrees for weeks on end this summer, it wasn't just us humans who were feeling the heat, but your roof also. How hot did your roof get? According to the U.S. Department of Energy, a traditional asphalt single on a normal sunny day can get up to 150 degrees. Add prolonged exposure to high heat and your roof can be damaged.

The intense heat of summer causes your roof shingles to expand, and as the evening cools down, they contract. This constant cycle of thermal expansion and contraction can gradually weaken the shingles over time. The repeated stress can lead to cracks, blistering, and curling, compromising the integrity of your roof and making it more susceptible to leaks.

The combination of high temperatures, UV radiation, and thermal stress during the summer months accelerates the aging process of your roof shingles. What might have taken years to manifest in milder weather condi-

tions can occur much more rapidly under the sweltering heat. It is essential to be proactive and address any signs of damage promptly to prevent further deterioration and extend the lifespan of your roof.

To make sure your roof is ready for winter, and spring rains that follow, have your roof inspected, not for any damage that might cause leaks and water damage.

# It's A Real Barn With A Long History

So the barn is actually a barn, it was built around 1875 in Schenevus, New York by immigrants that most likely passed through Ellis Island looking for a new life in the New World. The barn itself was originally 32'x45' and stood 34' tall. Construction was from hemlock and pine logs and was cut and put together using the mortis and tenon method using wooden pegs to tie the timbers together.

We constructed a loft as the original barn had a loft and we will use that for storage mostly. Our concept is fast, reliable and quality service along with product in a drive thru setting. And our drive thru will be an experience of its own with music, electronic graphics, the setting of the barn, and the friendly service.

Our POS system was designed to be fast, reliable and user friendly. We will have hand held units, kiosks for self-service drive thru ordering, and we will have online ordering as well. Food offerings are proposed to be from 5:00 a.m.-11:00 p.m., 7 days a week and our lunch and dinner will include, wood fired pizza, sandwiches, chicken strips, burgers, soft tacos, corn dogs, hot dogs, catfish/shrimp baskets and much more.

Breakfast will consist of smoothies, breakfast tacos, coffee, lattes, craft coffee, fresh juices. We will have fresh hot donuts and have an automatic donut machine that can make 400 donuts per hour with our custom dough. **To Go Barn** has a mixed beverage license and will sell margaritas and daiquiris to go both frozen and on rocks, specialty liquor-based coffee drinks, and beer. In addition to food and beverage, we will sell bagged ice, water, milk, eggs, and some basic convenience store items. 🇺🇸

# VARSITY LIGHTS

High School Football in Texas is not like football anywhere else. Its closer to a religion than a sport. So we decided to pit two famous Texas teams against each other to see who is the real top program in the state.

Jesse Johnston of the Sweathogs Paintball team vs. Coach Kilmer of the West Canaan Coyotes. Made famous by the movie *Varsity Blues*, there will be plenty of shenanigans both football and non-football related. With characters like Moxon, Tweeder and Billy Bob, its sure going to be a good time.

Sebastian Seabass Alvarez of Cobra Paintball is Coach Gaines of the Permian Panthers. Made famous by the movie *Friday Night Lights*, it showed the Panthers trek towards the state championship. More of a serious story, Seabass will be ready and well prepared.

So which team is going to take home the Texas State High School Championship? Join us at **TXR Paintball** to find out. ➔

# Easy Christmas Candy

Call me crazy, but what I love most about Christmas isn't the presents or the tree. It's all the Christmas sweets. Some love cookies, and others like the cakes and pies, but my all time favorite is Christmas Candy. But what every your choice of sweets, it just taste better shaped as a Christmas tree.

*Rolo Pretzel Bites*

Package of Rolos  
Square small pretzels  
Pecans halves

Line a baking sheet with parchment paper and spread pretzels on the sheet. Put a rolo on top of each pretzel. Place in a preheated 300°F oven for 3 minutes. Remove from oven and lightly push a pecan half onto the top of each turtle. Place baking sheet in the refrigerator for 30 minutes to cool. Store Rolo Bites in air tight container. Enjoy!

*Christmas Toffee*

1 cup sugar  
1 cup butter or margarine  
¼ cup water  
½ cup semisweet chocolate chips  
½ cup finely chopped pecans

Heat sugar, butter and water to boiling in heavy 2-quart saucepan, stirring constantly; reduce heat to medium. Cook about 13 minutes, stirring constantly, to 300°F on candy thermometer or until small amount of mixture dropped into cup of very cold water separates into hard, brittle threads.

Immediately pour toffee onto ungreased large cookie sheet. If necessary, quickly spread mixture to ¼-inch thickness. Sprinkle with chocolate chips; let stand about 1 minute or until chips are completely softened. Spread softened chocolate evenly over toffee. Sprinkle with pecans.

Let stand at room temperature about 1 hour, or refrigerate if desired, until firm. Break into bite-size pieces. Store in airtight container.

*Simple Fudge*

2 cups semi-sweet chocolate chips  
1 can Eagle Brand Condensed Milk  
1 cup chopped pecans  
1 tsp vanilla

Melt chocolate chips and milk on 50 percent power, 3 to 5 minutes. Stirring twice during microwave session. Stir until smooth. Add pecans and vanilla. Pour into a 9 inch square baking pan lined with parchment paper or foil. Let cool and cut into squares.
