

What is the cost?

Currently, it costs the residents of Buchanan County over \$96 per day/per homeless person. (HUD stats 2021)

St. Joseph's Haven provides housing for \$60 per day. Juda House provides housing for \$40 per day. This saves Buchanan County \$570,000 by housing 34 homeless men.

JUDA HOUSE

DIGNITY IN FAMILY

With 18 men housed at St. Joseph's Haven and 16 at Juda House, the men quickly become a close knit community. Through direct support by the CMC case managers and staff, the residents become the family that they never had.

What we do

CMC is an important part of the community's response to address homelessness. CMC has developed a compassionate and effective response that helps chronically homeless men to transition from living in places not meant for habitation to living in permanent housing and working towards greater stability. Through the "Housing First" model, we provide residents with immediate permanent housing, also engaging residents through a support team that develops recovery plans, which provide proven stabilization methods.
