

*New dimensions
of holistic veterinary medicine!*

MODERN EQUIPMENT

EASY TO USE

A DEVICE THAT IS PERFECTLY TAILORED TO YOUR NEEDS

OPTIMAL COST-BENEFIT RATIO

HOME OF MORA®

PIONEER OF THE BIORESONANCE METHOD!

Despite all the scientific advances, conventional medicine reaches its limits when it comes to treating diseases and maintaining health. Med-Tronik has been researching alternative treatment methods for over 45 years.

In the process, a form of diagnosis and treatment was developed that is gentle, sustainable and painless: the MORA®-System.

We were able to integrate the findings from our many years of experience with MORA® treatments in veterinary medicine into the new MORA®-VETCORE.

Countless possible applications for animals such as prevention, substitution, performance enhancement, aftercare are available to you with the MORA®-VETCORE.

What began as a family business over 45 years ago has now grown into an internationally active company. Med-Tronik is a pioneer of the **bioresonance method** and sets standards in the further development and optimization of biophysical medical technology.

We set new standards! Now also in veterinary medicine.

MORA®-VETCORE

The treatment successes in animals are achieved by the fact that the body's own vibrations are first picked up via electrodes and processed in the device in such a way that the prevention, the disease status or the wellness of the animal can be dealt with individually.

Through the body's own vibrations, which are modified accordingly by the MORA-VETCORE®, the current state of health is maintained or the "body's repair system" (regulation) is activated or a state of well-being is initiated, whereby the specific effect on the animal is achieved.

Gentle treatment with the body's own vibrations.

THE MORA®-VETCORE SETS NEW STANDARDS IN COMPLEMENTARY MEDICINE WITH INNOVATIVE TECHNOLOGY.

The special advantage of complementary medicine lies in the causal methodology. In contrast to symptomatic treatment, it aims to activate the body's own self-healing powers.

The aim of holistic healing methods is the long-term stabilization of the immune system without negative side effects.

On this basis, the treatment of allergies and eczema, chronic bronchitis, mastitis and ataxias as well as metabolic or fertility problems, eye diseases, complicated hernia healings and disorders caused by scars is possible.

By means of complementary healing methods, there is no risk of drug residues in farm animals, which, for example, eliminates the need for milking breaks and does not pose any risk to meat consumption.

In high-performance sports, performance enhancements are possible without harmful side effects and faster regeneration in the event of illness or injury.

PREVENTION, HEALTH MAINTENANCE

- ✦ Preservation of the immune system
- ✦ Psychological stabilization
- ✦ Stimulate metabolism
- ✦ Relaxation

WELLNESS

- ✦ Relaxation of the psyche
- ✦ Relaxation of the muscles
- ✦ Physical well-being

PERFORMANCE ENHANCEMENT

e.g. for sport and competition horses:

- ✦ Rideability
- ✦ Training increase (endurance)
- ✦ Increase in motivation, stress limit
- ✦ Constitution improvement
- ✦ Increased concentration
- ✦ Relaxation of the muscles
- ✦ Blockage solution

DEFENSIVE INCREASE

- ✦ Structure of the immune system
- ✦ Allergy treatments
- ✦ Eczemas

EMOTIONAL REGULATION

- ✦ Exhaustion
- ✦ States of depression and lethargy
- ✦ Restlessness
- ✦ Anxieties

SCAR TREATMENT

- ✦ Castrations
- ✦ Operations of any kind
- ✦ Paw lesions
- ✦ Claw injuries

OUR EXPERIENCE

✦ Movement system

Bruises, joint effusions, lameness of any kind, muscle and tendon tears, overexertion, strains, tendon and spine problems

✦ Respiratory system

Bronchitis, infections, diaphragm

✦ Reproductive system

Uterine inflammation, hormonal disorders

✦ Pain treatments

Mastitis, hematomas, edema, fall, bite

✦ Digestive system

Treat colic, poisoning, diarrhea, eczema, general intolerances

✦ Sensor

Eye injuries,
eye inflammation,
circulatory disorders,
conjunctivitis

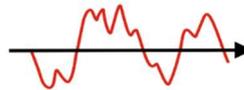

Our experienced animal therapists achieve very good results in various applications.

THE MORA[®]-VETCORE AT A GLANCE

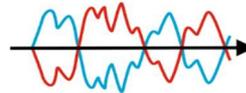

TECHNICAL FACTS

- ✦ Proven 2-channel technology
- ✦ Built-in ELH function (2 channels)
- ✦ Multilingual display (16 languages)
- ✦ Integrated PC
- ✦ Battery operation possible for up to 8 hours
- ✦ Integrated network connection
- ✦ User-friendly touchscreen
- ✦ Internal database for animals
- ✦ Retrieving old data
- ✦ Online updates possible
- ✦ Reinforcement range
0.1 to 1 million per channel

Misinformation = interference

When the two vibrations overlap, they neutralize each other.

Misinformation inverted

This will delete the misinformation.

ADDITIONAL BENEFITS

- ✦ Modern equipment with easy application
- ✦ Self-explanatory menu navigation
- ✦ Remote Service
- ✦ Portable device with touchscreen
- ✦ Simple EAV measurement possible
- ✦ VET-Bos as an extension, e.g. in the barn
- ✦ Special programs for large and small animals
- ✦ Use of the MORA-Blue Mag
- ✦ Use of the active electrode
- ✦ Connection of the surface electrodes
- ✦ Connection of a horse blanket
- ✦ Audio
- ✦ Standard programs can be adapted by the user to his own needs.
- ✦ Electrode wiring can be set manually or fully automatically
- ✦ Creation of chain programs possible by users

When traditional naturopathy is combined with state-of-the-art technology!
