This range of multiple pendants and wall lamps takes the concept of a melting icicle one step further, not only using long clear crystal drops that mimic a falling drop of water but also shaping the frame which hosts them into a similar shape. The polished chrome metal frames are curved like slowly cascading water which the crystal drops and GU10 lampholders sit inside.

The multiple pendant light and wall lamp have a painted brush gold finish which offsets perfectly against the 3000K integral LEDs. Each staggered drop hosts a glass piece moulded to reflect crystallised ice which sits beneath the gold bands in which house the LEDs.
