

Harborough Lights

Lighting Design Consultancy

PRICED VERSION

WALL LIGHTS

inspired by lighting

As a high street retailer in a competitive market, we understand that our customers have many choices on where to shop, both on the high street and online. With this in mind, we have designed and sourced a unique lighting range, which we are proud to offer our customers. We have historically offered a wide array of products, suitable for all needs and this new range is certainly no exception.

Whether you are looking for that unique statement piece with outstanding design, have a project to complete or just want something that is not run of the mill, then this catalogue will fill you with design ideas, the highest of quality products, and a huge range of over 1500 items. In fact, with a little bit of creativity the possibilities are endless. This catalogue has taken decades of experience, picking out inventive, outstanding design concepts, not just as single products, but many ranges offering complementing suites of lighting to suit all your needs. From traditional to modern and contemporary, indoor and outdoor, this catalogue collection has everything to transform the ambience of any residential or commercial environment.

We pride ourselves on offering a personalised service to all of our customers. We endeavour to provide that personal touch to ensure you are guided and advised to purchase the most appropriate lighting for your needs and have a professional experience. You can rest assured that you can contact us for any after sales service you may require, but most importantly the new collective offers something for everyone at exceptional prices.

Whilst we hope you find our latest collections inspiring, we also value any customer feedback and look forward to being of service to you.

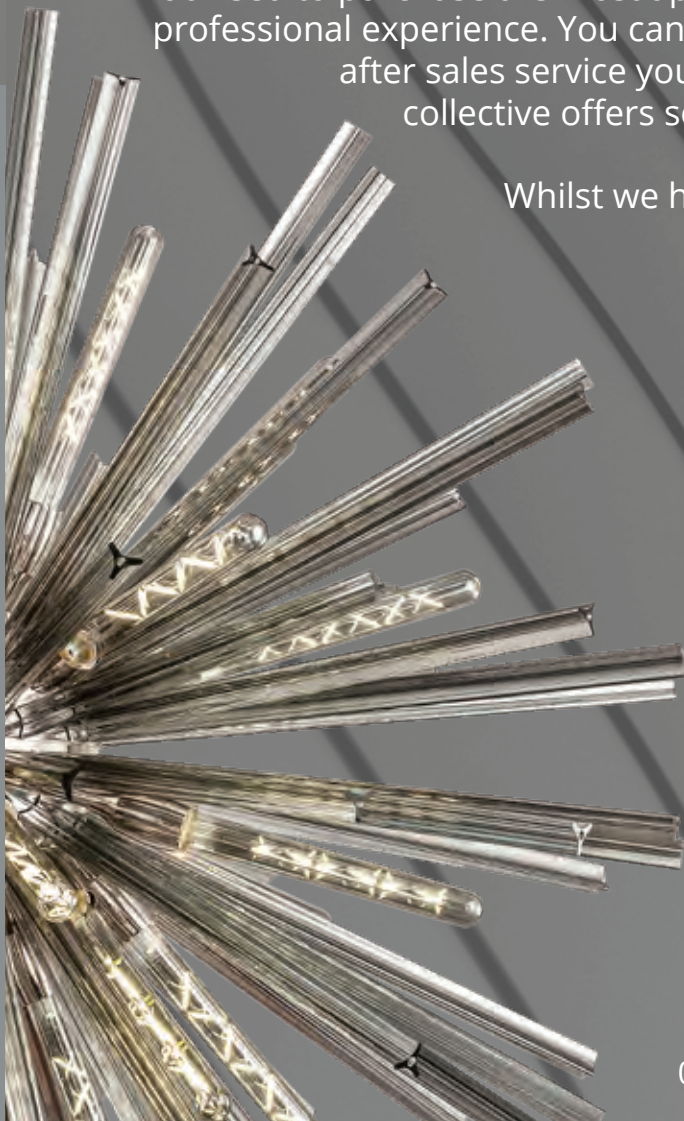

...let there be light

All information provided in this catalogue is approximate for guidance only and are subject to alteration and modification. Goods supplied may vary in detail from the illustrations, drawing and descriptions as a result of improvements. Colour finishes will be maintained as accurately as possible, but matching cannot be guaranteed.

LUMBREIDA

This seemingly simplistic band of metal framework is then opened in the centre showing the band split at a point and curved over on one side. This inventive manipulation of the metalwork offers a unique concept to complement this modern wall lamps integral LEDs which project an ambient illumination. This range is ideal for a highly modern setting.

MAHRENHORN

A looped ribbon, band shape available in either a sand anthracite and satin nickel or sand white with polished chrome finish is the ultimate modern wall lamp. The integral 3000K LEDs sit within the inside of the protruding frame which disperses the light in two directions through the fixtures open form generating a pleasing ambience.

PFLUNSPITZE

The inside of these cylindrical wall lamps has a highly reflective polished chrome finish to amplify the integral light from the 3000K LEDs and offset the sand anthracite or sand white outer finish. The cylinder shape is moulded to give the impression it has been peeled open leaving the curved points curled over like the flipped pages of a book.

FLAVONA

The rolling wave construction of these ultra modern wall lamps could be used as a stand-alone decorative feature on any wall. The unique form casts the light from the integral 3000K LEDs along the wall surface in an upward directionality. Each of the two sizes boast an impressive lumen output for wall lights of their size.

ROSEG

The long panel form of this wall lamp angles slightly away from the wall to further project the light into a larger dispersal beam of illumination along the surface wall. The integral 3000K LEDs are built into the frame and concealed behind the long opal diffuser which sits flush against the arm to ensure its presence is subtle so is not to detract from the design.

SASSIGLION

This range is available in three different sizes which increase in output as they increase in size, this collection of high quality integral LED wall lamps are modern, slim line and understated. The narrow oval shaped diffuser has a central sand white plate which is slightly smaller to accommodate a halo of 4000K light, producing a serene effect.

SCHOBER

These wall lamps successfully use the metal framework and diffused integral LEDs to not merely provide a wall lamp but an artistic illuminated feature. The 3000K light is filtered through a waved acrylic piece which is set back behind the same form created from the metalwork, introducing a unique, modern and eye-catching wall light fixture enhancing modern décor.

REISECK

A hollowed belt shape forms this fittings framework and creates an enhanced halo effect of the 3000K LEDs. The optional colour finishes available; satin brown or white both harmoniously complement the aura of warm light illuminating the area. The high quality LED technology ensures a long lasting usage and display of soft bi-directional wall fixture lighting.

LAUZIERES

The rectangular strips of metal and acrylic on these wall lamps are layered and slightly fanned out for a unique lighting effect. The acrylic piece houses the integral 3000K LEDs offering a total of 8W, an impressive output for the size of the wall lamp itself. Available in two colour finishes, these wall lamps are appropriate for any colour scheme.

TRUGBERG

These wall lamps have a distinctly creative form. The curved tubular shape is cut away at the front displaying the depth of the cylinder, leaving a comparatively small strip towards the bottom of the wall lamp to conceal the integral 3000K LEDs, which also creates a dual light source. This modern concept is available in anthracite and gold leaf or white with silver leaf finishes.

GINER

The design of this range is a creative replication of a magnifying glass shape with the LED heads sat within the flat ring. Each item has a pivotal joint that allows movement of the direction of light emitted from the integral 3000K LEDs ideal for a workspace or reading area. The small vertically protruding handle makes the navigation of directionality both simple and safe.
