

I move that due to the fact that the current Fitness Center is in disrepair, the Desert Greens HOA Board vote to support the rehabilitation and restoration of the Community Fitness Center by allocating appropriate financial resources to replace the existing equipment with suitable grade equipment appropriate for the Senior Community.

This rehabilitation can include cleaning, painting, replacement of broken or worn fixtures and equipment, electrical work as necessary, removal of unmatching home-use equipment, removal & replacement of rubber flooring, signage, and other items as deemed necessary.

A future motion will be presented & voted upon to approve a budget.

All in Favor- Vote
