

## Gardeners of Greater Youngstown

We are one of the oldest garden clubs in the country, originally organized in June of 1930 as the Steel City Gardeners, and renamed in the 1940's as the Men's Garden Club of Youngstown. In 2020, the club's name was changed again to the Gardeners of Greater Youngstown, reflecting the decision to admit women to the club.

The mission of this club shall be to promote a better understanding through education and to practice horticulture diversity for all segments of the community. The objective is to provide a platform to educate through flower shows, seminars, youth programs and other available means and to safeguard, beautify and improve our environment.

Meetings are held the first Wednesday of each month at 7:00 p.m. in the D.D. and Velma Davis Education and Visitor Center at Fellows Riverside Gardens. Members receive a monthly newsletter, *The Germinator*, which has club news, timely gardening hints, and other local and regional horticultural events. Members also become members of the Gardeners of America.

Whether your interests run from azaleas to zinnias, or asparagus to zucchinis, you will definitely find some "common ground" with this group.

Membership is open to anyone with an interest in gardening. To join, complete a membership application or be our guest at a monthly meeting.

## Join the Gardeners of Greater Youngstown

Our interests are as varied as yours. GOGY members are also affiliated with:

- African Violet Society of America
