

META-RESULTS

Important: The RACP program is directed only to Partners of Trinity Crown Ltd. The program cannot be transferred to third parties and is protected by law under the terms of the partnership agreement with Trinity Crown Ltd. RACP is dedicated to each person, individually. It is tailored to his or her ability, weight and individual body characteristics. The RACP program provides a complete approach with preliminary physician, medical, coaching assessments. Let's remember to protect our loved ones and create a separate RACP program for them also.

How the RACP works:

1. Directly:

- improves epigenetics through the process of syrtuin activation,
- multiplies stem cells,
- improves the body's energy resources - AMPK process,
- regulates good amino acid resources
- mTOR process,
- regulates glucose levels,
- improves metabolism and regeneration of all tissues,
- lowers indicators of insulin resistance,
- repairs damaged cell DNA,
- lengthens telomeres,
- eliminates and removes senile and "zombie" cells,
- accelerates the autophagy process.

Certainty Everyone's different

- 2. Giving short, medium and long term effects: - extends biological age by 30-50%, the goal of a 150 year life span
- strengthens natural immunity, - improves the look of skin, nails,
- reverses the effects of aging, skin spots, gray hair,
- improves eyesight,
- regenerates internal and external organs,
- regulates blood pressure,
- reverses the process of osteoporosis,
- increases fat metabolism,
- stabilizes the work of the endocrine system,
- reverses civilization and genetic diseases (e.g. cancer, diabetes, cardiovascular)

Only natural supplements: Mg, NR, K, Zn, Fesitine, B vitamins, Berberine,

Vitamin D3 and K2, Vitamin C, Resveratrol, Selenium, Spermidine, Quercetin.

All research has been conducted since the early 1930s. The main breakthrough came after 1990 (A-T-C-G, DNA code) when an avalanche of research conducted first on animals and

Based on scientific and clinical research

then clinical studies on humans took off. After 30 years, they yielded the latest breakthrough results of turning back the age. Teams of top experts at the world's top universities and institutes were and are involved: the National Institute on Aging, USA; Harvard Medical School, USA; University of California LA, USA; MIT Boston, USA; Christensen University, Denmark; University of Washington, USA; Mayo Clinic, USA; Minnesota University, USA; Albert Einstein College of Medicine, USA; Horvath Labs, USA; Keyo University, Tokyo, Japan; Tokyo Institute of Technology, Japan. Current knowledge is creating a breakthrough in the approach to treatment and its underlying cause, which is the disease of aging.

- Dr Steven Horvath - Dr Denham Harman

The Pioneers - Profesors and doctors of the program of anti-aging:

- Dr Jim Nelsons

- Dr Rafael de Cabo

- Dr Cynthia Kenyon King Faisal International Prize in Medicine
- Prof Lenny P Guarente - Prof Yun Yoshino
- Dr Shin May - Prof Jim Kirkland
- Prof Shinya Yamanaka Noble Prize (6.12.2012)
- Dr Shuxian Dong - Dr Wang Chang Lu

- Dr Greg Fahey

- Dr Anna Maria Cuervo - Prof Yoshinori Ohsumi - Noble Prize (3.10.2016)

- Dr Mariana Boroni

- Prof Matt Kaeberlein - Prof Schwartz - Prof Anton van Leeuwenhoek XVII century

Live long and wide

We are confident in the effects of RACP, study it yourself:

- blood pressure, - heart rate,
- sleep activity,

- biological age

Such transparency in health has never been seen before

- glucose levels,
- insulin levels, - blood oxygenation,
- and many others on a monthly, semiannual or even continuous cycle.

For us, health care is important, not disease care.
