

POST SEDATION INSTRUCTIONS FOR ESCORT

- Please escort the patient from the vehicle to the house by supporting them under the arm.
- Do not let the patient go up or down stairs unescorted.
- Patients may sleep after surgery but must be watched for at least 6 hours after treatment. Patients may wake up with some confusion so be there for them. Keep their head slightly elevated and cover the pillowcase to protect it from red saliva.
- Do not let them drive and make sure they limit their physical activity for the rest of the day.
- Being cold is normal, use blankets as needed.
- Assist the patient with their medications as directed by the dentist/dental assistant.
- If the patient experiences any complications, call the office or Dr Rivero after-hours at 407-923-7433 or email Office@TheExtractionClinic.com

ESCORT RELEASE

I am escorting _____ home. I understand the patient has been sedated and will adhere to the instructions above. I have had the opportunity to ask any questions I may have.
