

Design

The versatile 140 series incubators from Quincy Lab were custom-developed for laboratories that need a dependable, compact incubator for cultures, test kits, eggs and biologicals. For lab applications requiring a constant thermal environment, these units are ideal for clinical, industrial and school laboratories, for physicians' offices, and as a general purpose warming cabinet.

Selection

Select from the economy of analog control or the accuracy and convenience of digital, from light-pressure thermal convection or the performance of forced uniform air. All units feature high grade aluminum interiors, cold-rolled steel exteriors powder coated in our "clean room" ivory and a bronze acrylic see-through door. 'E' models features include selectable C or F unit in 0.1 display resolution and a continuous self-diagnostic function that prompts if control malfunctions or thermocouple fails. All units UL and C / UL listed for laboratory equipment.

ANALOG INCUBATOR SERIES

Our light-pressure thermal convection -140 & -180 analog models offer good utility at an affordable price. These analog incubators offer the following features:

- Powder-Coated Exterior
- High Grade Aluminum Interior
- High-Optic Acrylic Door (-140 series)
- Insulated Steel Door (-180 series)
- Illuminated Power Switch
- Heat Cycle Pilot Light
- Precision Bimetal Controller
- (1) fixed and (1) Adjustable wire shelf
- Enviro-friendly Spirit Thermometer
- Available in 115 or 230 Volt
- 18 Month Warranty*

DIGITAL INCUBATOR SERIES

Our digital 'E' models offer the ease of temperature setting and the stability of a full PID microprocessor that accurately maintains temperature settings even in varying ambient or power supply conditions. These digital incubators offer the following features:

- Powder-Coated Exterior
- High Grade Aluminum Interior
- High-Optic Acrylic Door (-140 series)
- Insulated Steel Door (-180 series)
- Illuminated Power Switch
- Full PID Microprocessor
- Includes (1) fixed and (1) Adjustable Wire Shelf
- Enviro-friendly Spirit Thermometer
- Available in 115 or 230 Volt
- 18 Month Warranty*

AIR FORCED INCUBATOR SERIES

The AE models combine the accuracy and functions of the 'E' model's microprocessor with the performance of forced air. 'AE' models are ideal for large or high-density loads or applications requiring faster warm-thru times. These Air Forced Digital Incubators offer the following features:

- Powder-Coated Exterior
- High Grade Aluminum Interior
- High-Optic Acrylic Door (-140 series)
- Insulated Steel Door (-180 series)
- Illuminated Power Switch
- Full Horizontal Air Flow
- Full PID Microprocessor
- Includes Adjustable Aluminum Shelf Model 10 (2 Shelves) ; Model 12 (3 Shelves)
- (1) Spill Tray
- Available in 115 or 230 Volt
- 18 Month Warranty*

* The standard warranty period is 18 months, (3-year coverage on the heater element), from date of shipment. Please refer to your invoice or shipping documents to determine the effective warranty period. This warranty covers parts and labor (labor at factory only), and shipping cost for replacement parts.
