

Support Families

Stronger Homes. Stronger Future.

THE PROBLEM

Right now, raising a family feels harder than it should:

- Childcare is expensive and hard to find
- Everyday costs keep rising
- Families are stretched thin
- It's hard to plan for the future

MY PLAN

Let's make it easier to raise a family again.

Affordable childcare support

Real solutions to help families access and afford childcare.

Lower the cost of living

Relief for everyday expenses so families can breathe again.

Tax relief for working families

Put more money back in your pocket, not into bureaucracy.

Multi-generational housing support

Make it easier for families to live together and support one another.

WHAT THIS MEANS FOR YOU

- More breathing room financially
- Less stress raising kids
- More stability at home
- Stronger family support systems

Strong families build a strong country. We make it easier to raise one.

Stephanie Petersen for Congress

For families. For the future.
