

Keep My Family Safe

Real Protection. Real Accountability. No BlindSpots.

THE PROBLEM

Right now, families are asking questions they shouldn't have to ask:

- What's actually in my food?
- Is my child safe online?
- Who is really being protected... us or the system?

MY PLAN

I'm focused on real safety, across the board.

Clean up our food

Clear labeling. Safer standards. You deserve to know what you're putting in your body.

Protect our kids

Stronger protections against trafficking and online exploitation.

Strengthen our communities

Safer neighborhoods and more stability where we live.

Hold systems accountable

More transparency so the government works for you, not behind closed doors.

WHAT THIS MEANS FOR YOU

- Confidence in what you're feeding your family
- Better protection for your children—online and offline
- Safer communities
- A government you can actually trust

Safety is not negotiable.

Stephanie Petersen for Congress
Protecting families. Restoring trust.
