

Make Life Affordable Again

Stability. Simplicity. Breathing Room.

THE PROBLEM

Right now, life feels like this:

- Groceries keep going up
- Housing feels out of reach
- Healthcare is expensive and confusing
- Prices change constantly and unpredictably

MY PLAN

I'm focused on bringing stability back to everyday life.

Lower the cost of living

Address rising costs of housing, food, and everyday essentials.

Make healthcare more affordable

Simplify access and reduce out-of-pocket expenses.

End volatile tariffs

Stop sudden policy swings that drive up prices on everyday goods and create uncertainty for families and small businesses.

Increase transparency

You deserve to know where your money is going—and why things cost what they do.

WHAT THIS MEANS FOR YOU

- More predictable monthly expenses
- Lower everyday costs
- Less financial stress
- More stability for your family

You shouldn't have to struggle just to live a normal life.
