# USER GUIDE FOR REGISTERED DENTAL HYGIENISTS

The content, organization and management of dental hygiene care is guided by the principle of accessibility for all Canadians to comprehensive oral health care and the promotion of oral health as an integral component of general health.

The purpose of this Fee Guide is to provide guidance to dental hygiene business owners in Ontario in setting the fees they charge for their professional services. The ODHA Fee Guide is not intended for use by registered dental hygienists employed within traditional dental offices.

**It is a guide only;** adherence to the guide is not obligatory. Each registered dental hygienist will set fees to reflect their specific practice realities and local circumstances and requirements.

Registered dental hygienists are expected to follow their code of ethics and standards of practice when determining the value of a dental hygiene service. Dental hygienists are responsible for ensuring they adhere to their scope of practice when providing professional services and for fees charged associated with those services. To be fair, transparent and consistent with treatment time, all procedure codes selected must accurately reflect the actual services performed during an appointment.

This Fee Guide does not provide guidance on dental hygiene scope of practice. Questions regarding scope of practice should be addressed to the College of Dental Hygienists of Ontario.

This Fee Guide uses the CDHA National List of Service Codes® produced by the Canadian Dental Hygienists Association (CDHA). The CDHA National List of Service Codes® provides a description of the expectations of service for the codes used in this Fee Guide.

A unit of time is defined as fifteen (15) minutes of procedure time. A half unit of time is defined as up to seven and a half minutes of procedure time.

To provide clarification:

Code 0100 - Dental hygiene examination/assessment and diagnosis:

The code series 00100 'Dental hygiene examination/assessment and diagnosis' includes items such as: medical, dental, and personal history; extraoral and intraoral examinations; periodontal assessment (e.g., sulcus depths, bleeding upon probing, recession, clinical attachment level, etc.); oral self-care assessment; dental hygiene diagnosis; treatment planning; and case presentation, along with the appropriate documentation of the findings/assessment.

00510 - Debridement

May include supra- and/or subgingival scaling and/or subgingival deplaquing. Debridement time includes the time the registered dental hygienist spends:

- Reviewing the client's chart to prepare for the procedure;
- administering topical anesthetic when required (or local anesthetic provided by a dentist working in the dental hygiene owned business);
- performing the procedure;
- providing postoperative instructions (as required); and
- recording treatment notes in the client's chart.

Scaling time does not include procedures such as: Dental hygiene examination/assessment and diagnosis; radiographs; or instruction in oral self-care; etc.

There are separate ODHA codes for these services. It is important to note procedure codes and units of time must accurately reflect the service(s) provided. It is considered misuse of the ODHA Suggested Fee Guide to charge for more units of time than the total time the client was seated and attended by the registered dental hygienist during the appointment.

## **Dental Hygiene Claim Form**

To protect themselves from copyright infringements, it is important all Ontario registered dental hygienists who are not members of CDHA submit insurance claims use the standard dental hygiene claim form attached to this Fee Guide and available on the ODHA website.

### **Review**

ODHA will periodically review the suggested fees and will submit any suggestions for the coding system to the CDHA so it can take these under advisement in its own review. Members are encouraged to submit evidence-based feedback to the ODHA in writing.

Members and third parties are reminded the suggested fees contained in the Fee Guide were prepared by the Ontario Dental Hygienists' Association to provide a guideline of fees considered to be fair and reasonable. The suggested fees are a guideline only. The suggested fees are not binding on any registered dental hygienist or third-party billing or paying for dental hygiene services, and there is no obligation to follow the suggested fees in the Fee Guide.

**In this fee guide:**

**‘+ lab’**

- an additional laboratory expense may be assessed with the procedure code
- the code for laboratory expense is 00991

**‘+ exp’**

- an additional expense such as courier costs may be assessed with the procedure code
- the code for an additional expense is 00992

**‘c.s.’**

- the fee is client specific and determined by the individual time and circumstances of the service provided

**‘tooth number’**

- when a service code requires a “tooth number”, the 2-digit International System of tooth numbering is to be used

| Service / Code                                                                                               |                                                                                                        | ODHA 2026 suggested fee |
