

# PROJECT : FOOD WASTE

1

## WHAT?

The practice wants to recycle its food waste better.

## WHY?

i was fed up of clinicians putting there food waste in the clinical bin when I did the bins at the end of the shift.

Legally required to separate out food waste in the practice now.

2

3

## HOW?

Sent out notification to tell other staff about it.

Put signs and posters up.

Ordering food waste collection bins

## WHO?

Practice team, including practice manager and nursing staff.

4

5

## WHAT WENT WELL?

Working with staff such as practice manager and nursing team to show an example for the rest of the practice.

## EVEN BETTER IF?

Some of the messages fell on deaf ears so not all staff on board yet.

Some staff still putting food waste in the clinical bins.
