Before proceeding with any account applications, please take a moment to review the following information.

The initial phase of establishing business credit, often referred to as "**Tier 1**," involves applying for vendor or Net 30 accounts. This arrangement allows you to make business-related purchases and settle the invoice within a 30-day period.

When you're ready to progress to "**Tier 2**," it's important to ensure that your Experian Business Scores are at 75 or higher. Additionally, aim to have at least five accounts reporting to both Dun & Bradstreet (D&B) and Experian. At this stage, you'll primarily be applying for store accounts with retailers such as Sam's Club, Best Buy, and Lowes. These accounts can be instrumental in boosting your cash flow. Aim for credit limits of \$500 or more and ensure your business has been operational for a minimum of 90 days with a solid banking history.

As you advance to "Tier 3," it's advisable to have a total of eight or more accounts reporting to both D&B and Experian. At this level, you can start acquiring gas and maintenance accounts, as well as some revolving business credit cards, without the need for a Personal Guarantor (PG). This represents a significant step towards establishing a robust business credit profile.

In certain instances, having a Personal Credit score of 680 or higher may allow you to bypass TIER 1 Accounts.

## **TIER 2 Accounts- GET 5-7 TIER 2 ACCOUNTS ADDED TO BUSINESS CREDIT PROFILE**

### **Store/Retail Accounts (Tier 2/3)**

Prior to submitting your application, we strongly advise reviewing the requirements and accompanying notes.

At this stage, it is recommended to utilize NAV credit monitoring to verify the accuracy of your trade accounts' reporting and ensure all business information is up to date. If any information is found to be reported incorrectly, it is important to promptly rectify it.

With your generated scores in hand, you can now strategically cultivate your business credit. For instance, if you operate a real estate business, focus on applying for accounts that align with your business needs.

When pursuing trade accounts, verify that your business information matches accurately, and utilize your net/credit options when making purchases. We recommend selecting a minimum of five accounts from the options provided below to bolster your business credit profile. Remember, the more positive tradelines you have reporting, the greater your likelihood of securing approvals.

# COMMUNITY DEVELOPMENT FINANCIAL INSTITUTION (CDFI)

Community Development Financial Institution (CDFI) Certification is a designation given by the CDFI Fund to specialized organizations that provide financial services in low-income communities and to people who lack access to financing. CDFIs include regulated institutions such as community development banks and credit unions, and non-regulated institutions like loan and venture capital funds. By building the capacity of a nationwide network of CDFIs, the CDFI Fund works to empower low-income and underserved people and communities to enter the financial mainstream.

Certified CDFIs are eligible to apply for **awards** through a variety of [programs](#) offered by the CDFI Fund. These awards enable CDFIs to finance a wide range of activities—including mortgage lending for first-time homebuyers, flexible underwriting for community facilities, and commercial loans for businesses in low-income areas. Through varying strategies, each CDFI contributes to the cultivation of a healthy and stable local economy.

For more information, please see our **CDFI Certification Fact Sheet** ([English](#) / [Español](#)).

## ELIGIBILITY

To apply for CDFI Certification, your organization must submit an application to the CDFI Fund for review. The CDFI Certification Application must demonstrate that the applicant meets each of the following requirements:

- Is a legal entity at the time of Certification application;
- Has a primary mission of promoting community development;
- Is a financing entity;
- Primarily serves one or more target markets;
- Provides development services in conjunction with its financing activities;
- Maintains accountability to its defined target market; and
- Is a non-government entity and not under the control of any government entity (Tribal governments excluded).

For more detailed information, please refer to the application resources found in the section below.
