In our Crystal Healing for Angelic Reiki tradition, crystals are seen as natural vessels of high-frequency light. Their unique molecular structures allow them to hold, amplify, and transmit energy with remarkable clarity.

When combined with the presence of the angelic beings, crystals become powerful anchors for transformational healing.

Angels bring divine guidance, pure light, and unconditional love.

Crystals bring structure, grounding, and amplification.

Together, they create a healing environment where transformation can

happen on multiple levels—mind, body, and soul.

This synergy allows clients to access deeper states of peace, release longstanding energetic blocks, and reconnect with their natural state of wholeness.

During this class you will deepen your blending with angels, anchor in higher light and create a template for profound healing others.

Please note this workshop is to be held on 12th and 13th September 2026 and can be used for your CPD points.
