

Here's a **complete setup guide** for an **ONN** streaming device (stick or box) including how to install the Downloader app safely and correctly.

Step 1: Plug in your ONN device

Example device:

ONN Google TV Full HD Streaming Device

- Plug the ONN stick into your TV's **HDMI port**
 - Connect the **power cable to a wall outlet** (don't rely on TV USB — it can cause issues)
 - Turn on your TV and switch to the correct HDMI input
-

Step 2: Initial setup (Google TV setup wizard)

Follow the on-screen prompts:

1. Choose **language**
2. Connect to **Wi-Fi**
3. Sign in with your **Google account**
4. Accept terms and updates

The device will update and load the home screen.

 **Tip:** You can speed this up using the **Google Home app** on your phone, but manual setup works fine.

Step 3: Install basic apps (optional)

From the Google TV home screen:

- Go to **Apps** → **Search**
- Install apps like:
 - YouTube
 - Netflix

- Hulu
-

Step 4: Enable Developer Options (required for Downloader)

To install apps like Downloader, you must allow “unknown sources.”

Do this:

1. Go to **Settings**
2. Select **System** → **About**
3. Scroll to **Build**
4. Click it **7 times** until you see “*You are now a developer*”

Now:

5. Go back → **Settings** → **Apps** → **Security & Restrictions**
6. Turn on:

- **Unknown sources** (or “Install unknown apps”)

This allows sideloading apps outside the Play Store.

Step 5: Install the Downloader app

The Downloader app is available directly from the Play Store on ONN devices.

1. Go to **Apps** → **Search**
 2. Type: **Downloader**
 3. Install the app (orange icon by AFTVnews)
-

Step 6: Configure Downloader

Open Downloader and allow permissions:

- Allow **file access**
- Allow **install unknown apps** (if prompted)

Step 7: Use Downloader to install apps (APK method)

Now you can install apps using a URL:

1. Open Downloader
2. Enter a **URL or code** (for example, a known APK source)
3. Click **Go**
4. Download file
5. Click **Install**

 **Important:**

- Only use **trusted sources**
- Avoid pirated or illegal streaming apps

Step 8: Set Up IPTV App (Smarters / Similar)

Once installed (example: IPTV Smarters):

1. Open the app
2. Accept terms
3. Choose login method:
 - **Xtream Codes API**
4. Enter:
 - Username
 - Password
 - Server URL
5. Click **Add User**
6. Wait for channels to load

 After loading, you can access:

- Live TV
-

Step 9: Clean up (recommended)

After installation:

- Delete the APK file (saves space)
 - Restart device if needed
-
