

MEET THE INSTRUCTOR

Victoria Malone

As an educator, I believe the purpose of education is; to mold and develop blossoming minds, to reach their highest potentials. I enjoy provided tutoring services to assist young minds in their educational journey.

I have studied education for numerous years, I'm completing my final semester at Arizona State University with a Bachelors of Secondary Education (Mathematics). I have years of tutoring and coaching experience. I look forward to working with your child to help improve their math success.
