

Paper: The Balancing Factor - Off-World Assistance

Date: 16 Feb. 2025

By: D. R. Shearer

Topic: Any soul on planet Earth who ended up looking into things, since early 2020, may be troubled by:

a) the effectiveness that high-financed propaganda has over the majority population, and/or

b) how that effectiveness has played out, as of the date of this paper.

In order to not be troubled by this phenomenon, one must be open to receive the larger picture of what is before them.

Introduction

The main factor that has the potential to be disturbing to the individual who has chosen to see what is before them *and* question it, may be the level of compliance to falsehood from the masses. This is not conjecture, as data and statistical analysis are there for all to plainly see. (see refs.) Folks everywhere continue to follow *old world* policies, in many cases leading to death or disability. The main attributes of these current times, with regard to any hope for the future, are what this paper is about.

The Dark Truth

The truth of the matter before us all is where the individual places their *faith* and *trust*. No one wants to find out that their government, allopath, lawyer, law enforcement officer, judge, etc. is not there for their best interest. Indeed it is a hard pill to swallow, even for some who declare themselves *awake* to see that a large segment of our population belong to industries that exist largely to serve their own interests (often at the expense of the lives and health of the *commoners* whom they supposedly 'serve'). But for a population, and the planet on which they dwell, to be truly free and abundant (be able to utilize the abundant natural resources that are rightfully theirs), they must face the truth before them, which is often **dark**.

The Conundrum

Two things are clear on the date of this paper:

1. after 59 months of experience, a full year of enhanced disclosure (2024), and much disruption, the masses are generally not motivated to **change the world**, and
2. as a planet (Mother Gaia) and a those calling her home, we are all moving to the Establishment of the Kingdom of Heaven on Earth.

This constitutes a conundrum, given the (continued) success of the propaganda campaign.

The Reality

Of the two points noted above the one that is the most iron-clad and therefore can be counted on, is point #2. This is outlined in the fundamentalist religious groups and is also noted in explicit detail in the Urantia Book. Therefore, there has to be a mitigating factor to resolve the conundrum, as noted above, to bring about the New Earth:

Divine Intervention

There is much historical discussion regarding “the end times” and the coming of the New Earth. It is not hard to figure out that in order to usher in the New Earth, the old one must be discarded. This is the reference to the “end times”. What has been revealed (officially on 15 November 2023) is that Divine Intervention will take the physical form of what are referred to as “divine personalities”. This is the increasing assertion and appearance(s) of off-world planetary beings. The picture on the top of the page where this document was downloaded resembles a cloud. What is important to recognize from this photo taken in June of 2023, is that this “cloud”:

- **never moved in over 24 hours**, and
- **never dissipated or changed form**, whatsoever.

No cloud has ever done this, that I know of, in the past 65 years... for clarification on this particular matter ones can refer to the Farsight November board meeting, if interested. (see refs.)

Conclusion

Folks are welcome (obviously) to continue to believe that:

- there are microscopic bugs in the air capable of snatching the life from them in a heartbeat, and/or
- that the anomalies in the Earth’s climate has anything to do with anything other than natural occurrences (see: “Climate – The Movie”), and/or
- that we are alone in the universe.

The end is certain.

“ At last all creatures become conscious of the fact that God and all the divine hosts of a well-nigh limitless universe are on their side in the supernal struggle to attain eternity of life and divinity of status. Such faith-liberated sons have certainly enlisted in the struggles of time on the side of the supreme forces and **divine personalities** of eternity; even the stars in their courses are now doing battle for them; at last they gaze upon the universe from within, from God’s viewpoint, and all is transformed from the uncertainties of material isolation to the sureties of eternal spiritual progression.”
