Topic: While there are many notable, overt negative attributes, throughout global societies, since March 2020, understanding the big picture of what is occurring, is critical. Primarily, many will realize, at this time, that planet Earth (Mother Gaia) and her inhabitants are in the final times of the evacuation of evil – once and for all and for ever! This paper outlines the details of what is currently before us all.

Introduction

The global disruption that becomes more obvious as the days progress (...for any and all who wish to recognize the signs, that is!), are deep and real signs of the final days of ages old, domineering evil that has been present, throughout much of Earth's history. There is a rich and detailed history of understanding that supports this analysis, again, for anyone wishing to view it. The process itself is recognized by fundamentalist religious groups as the Establishment of the Kingdom of Heaven on Earth. The Urantia Book clearly details this process and labels it as the Settling of Light & Life (for a planet). Both of these terms are identical as they signify the greatest transformation that an evolutionary sphere can be graced with.

The Nature of Advancement

The global population would not be able to proceed with this transformation if it weren't for the collective, sum total elevation of the consciousness of the masses. While many are declining this transformation (cognitively or unconsciously), it is the average total consciousness that is the key. Unconditional Love (540) counterbalances the sub-200 positionalities by 750,000 times! (see refs.) From here, and by the reports coming in across the planet, showing the masses uniting, we are firmly on the correct path. This overall process has been augmented by both of the *Harmonic* events of 1987 & 2003 as well as the general upliftment of collective consciousness. And once established, it is eternal!

Divergent Realities

What has become clear in recent times is that once a *critical mass* is achieved by those choosing to calibrate in the higher levels of consciousness (≥ 540), it becomes irrelevant what the remainder of the population chooses to do. In this regard there is a definite phenomenon occurring that is best described as "divergent realities". It is not necessary to understand the workings and fine points of such a procedure as this. It is only necessary to recognize the power that is contained with these high levels of calibration, as they make up the necessary gradient that will fulfill the overall destiny that is taking place. Every living *Soul of Light* is positioned to contribute to this grand procedure by the ultimate power of their own free will.

Opportunity – Ascension

There are many aspects of greater Reality that are beyond the comprehension of the average individual who has been restricted to think in the limited, five sense designation (which is most of us). This is especially true when one considers the relentless propaganda campaign of the Totalitarian globalist regime. However, as truth continues to emerge in an accelerating fashion, heightened over the past 5 years, greater Realities come forth as well.

One of these Realities is that the “Ascension process” is an integral and necessary component to bringing forth eternal Light & Life, as is occurring presently. This Ascension guarantees a foundational element/percentage of humanity that will serve to essentially *inherit the Earth*, as noted in the Bible. Without this foundation of elevated consciousness the defaults of our history would be free to continue and reproduce.

Conclusion

The removal of widespread and systemic evil/falsehood from a global society doesn't come disruption-free. Many global citizens have been trained (by propaganda) to contribute to the falseness in our societies. But this does not mean that relentless propaganda and lies will continue to govern the minds of the masses. (see refs. - Power vs. Force) **Far from it!** All indicators show us that the process of benevolence will overtake the planet and fully establish the Kingdom of Heaven on Earth. (see the next document, cementing this process – “The Balancing Factor”)
