

Paper: [A Tool for the Final Phase - TRUE FORGIVENESS](#)

Date: 23 Nov. 2021 (rev. 16 Jun 2024)

By: D. R. Shearer

Topic: Humanity has embarked on the **second last phase** (as of Nov. 2021), before our planet will be “Settled in Light & Life”. This **phase** is the final opportunity for all to acknowledge the Reality of the situation. While many are well on the path in doing just that, there remains many more, by way of cognitive dissonance and/or academic training, who continue to refuse the process.

The **last phase** will be the *disruption* that occurs from no longer being able to ignore the effects of what is before them (cognitive dissonance). Facing the Truth may be difficult for many who have chosen to shut it out, and be allegiant to falsehood, after 35 months. But the Truth will not let us down... ever. It has a *tool* made precisely for *major disruption*, and **it is** the topic of this Paper.

The Two Kinds of Forgiveness

False Forgiveness

False forgiveness states, “I remember what you did to me, but I forgive you for it”. This is not True forgiveness, it is simply a gesture which carries no spiritual validity, and is a component of small ‘r’, reality. As Eckhart Tolle has been telling us for some time now, living in the past does not provide us with Freedom or Peace. As with ‘fear’ of the future, ‘regret’ or vengeance over past events, is equally a complete falsehood (Dr. David Hawkins).

True Forgiveness

True forgiveness resides in the precept, “The past does not exist”. While this may, at first, seem alien to some people, this Paper will provide several pertinent points on both the true definition of forgiveness and talking points on why we should align with the statement, “*The past does not exist*”.

Points to Consider Regarding Residing in the Past

1) Programming mass behaviour for control/profit - Emerging Truth, over the past 35 months, is clearly showing us that false propaganda and coercion has been repetitively promoted to humanity, by way of media & social

influencing... for several decades. This is NOT conspiracy theory, but rather just conspiracy. Evidence of this is everywhere and an example is the YouTube video "JFK to 911 - Everything is a Rich Man's Trick". Given this more recent realization (coercion for profit), even if a person wanted to hang onto some historical 'reality', what would be the point, knowing that it has been a propagandized melee (alteration) of information. While this has dictated the direction of a large portion of collective consciousness, for some time now, by way of 'programming', also to consider is point 2),

2) A component of programming behaviour - Intentional distortion of facts to suit a particular agenda - Also emerging during this unique period in human evolution is the details relating to the promulgation of **complete lies** (no other way to put it). As mentioned, this is emerging everywhere, for anyone wishing to acknowledge the details. One simple example is the complete false reporting of the millions of deaths in Africa during the fake AIDS/HIV event in the 1980's. Reporter Rian Milan (South Africa) notes how, after reading about many millions of deaths that have occurred in Africa, set out to find these graves. He never found any, and is still looking. An important side note to this particular scenario is the complete lack of death records over most countries of the African continent - an obvious temptation for anyone wishing to fabricate numbers!

3) Statistically, human recollection is *completely* uncertain. David Hawkins, by way of his authenticated research points out to us that a full 50% of court witness testimony is **false**. This obviously loosens further the allegiance to 'living in the past'.

4) **R**eality vs. **r**eality - The advancing levels of individual and collective human consciousness opens the door to the understanding of 2 different levels of our existence - reality vs. Reality. Small "r", reality can be described as the perceptual condition of our existence which is produced by our allegiance to *not* following Universe Principles (brotherhood, unconditional love, compassion, tolerance, etc.). We do the best we can with it, but that has resulted in whatever "less than satisfactory" conditions that an individual may have in their life, currently. An individual simply cannot reside in falsehood and not experience the negative repercussions in doing so.

Capital "R", Reality however, is God's Reality and is a condition which is available by way of Christ Vision or Christ Consciousness. It is a 'vision' which many will relate to in that it includes the reading/viewing of human & other auras. This is a big topic which will not be covered in this Paper other than this cursory presence. But I will say that the condition of 'Christ Vision' is backed up by well-documented research and experiential confirmation by countless individuals.

As pertains to the topic of this Paper, **Reality** has nothing to do with the *past* and everything to do with **NOW**.

5) Eckhart Tolle - The Power of Now. Tolle, being an individual who has experienced Christ Vision, by way of his own particular path, relates to the topic of this Paper by his books.

6) Human Free Will - Manifesting Reality - All of humanity has always had the Free Will choice to choose Truth over falsehood. The fact that we have been misled obviously affects the opportunities & conditions whereby we can choose Truth. Personally, I have found that in my life the Truth has always been available, at many *key time periods*, and whenever I have needed it. There is nothing special about who I am other than possibly I adamantly refuse to align with falsehood. Figuring out just what is falsehood has been demonstrated for me by my intuitive responses, even when I did not understand the full impact of the response itself. And currently we have the gift of discernment from the scientific (clinical & lab) findings of Dr. David Hawkins (see references).

The pertinent detail of point 6 - Free Will is Powerful, whether the average person knows it or not. We can choose to live in the past... or not!

Conclusion

At the end of the day, every human being alive has the amazing gift of Free Will. This Sovereign Power, handed down to us from the Universe/God has the ability to completely usher in the condition known as being "Settled in Light & Life" for our dear planet and its inhabitants. This condition is impending and is evidenced by the state of affairs currently and those affairs which are *about to occur* in the coming months.

It is the affairs which are coming immediately which will require the skilful use of the 'tool' illustrated in this Paper. True forgiveness is important on two specific fronts as we move through the coming times:

1) *The Participants* - As the people who find out that they have been unwittingly implementing falsehood on behalf of the globalist agenda become devastated by their own atrocities, True forgiveness is applied, to the **self**, in this case. Some of the 'participants' of this implementation have probably been unaware (up until now) of their own involvement. And radical/devastating realizations require equally radical (thought) adjustments to deal with it. This comes by way of the precept, "The past does not exist".

Just as Bruce Lipton said to the woman who was distressed at finding out that she was responsible for her own future, at one of his conferences (and that genes were **not!**), "You are responsible for your own future, ONCE you know that you are responsible for your own future!", the same applies to the

'implementers' of falsehood. They are responsible for their own actions once they know they have been participants of an nefarious, ulterior agenda.

2) *Those Affected* - Atrocities have been imposed upon the public at large, for several decades now (childhood chronic "disease" rate - 54.1%*) - When the public comes to the realization that they have been preyed upon by institutions that they have trusted, we have another devastating realization. This devastating realization also needs an equally radical solution - of course, the tool of this Paper - True Forgiveness.

Assistance here, is given to us by the realization that karma has played a significant role in the 'events' & 'circumstances' that we are experiencing. In other words, the devastation that we as individuals will experience in the coming near months, are the teachings of the seemingly endless & exhaustive cycle of karmic resolution. It is by this understanding that we may soften enough to allow radical precepts like, "The past does not exist", to bring the healing, that will fully establish Light & Life for the planet.

End Note: There was a reason why Jesus never taught the karmic principle directly - aligning with capital 'R' Reality instantaneously trumps all negative karmic potentiality and 'cleanses' the individual for the universe ascension program... into eternity!
