Quotes from Hume’s Book:

“If I could live my life over again, I would devote it to proving that germs seek their natural habitat, diseased tissue — rather than being the cause of the diseased tissue.” — Rudolph Virchow

“Nothing is lost, nothing is created ... all is transformed. Nothing is the prey of death. All is the prey of life.” — Antoine Béchamp

“The specific disease doctrine is the grand refuge of weak, uncultured, unstable minds, such as now rule in the medical profession. There are no specific diseases; there are specific disease conditions.” — Florence Nightingale
