

**Paper:** Planetary Destiny – Our Fork in the Road

**Date:** 22 August 2020 (rev. 16 Jun 2024)

**By:** D. R. Shearer

**Topic:** There are several significant indicators that tell us that we are on the correct path toward planet Earth being “Settled in Light & Life” (aka the “Great Awakening”). To gain an understanding of what this means, along with the logical steps on just how we arrived at this stage, is the topic of this Paper.

### Introduction

My name is Dave Shearer, and I have been on a search for the highest level of Truth, that is available, for as long as I can remember. The need for this search may have had its origins in either early life pain or from the revealing of despicable crimes against the North American/global society, at the hands of institutions/organizations, that are supposed to be for the ‘public good’. *Or both*. This is *less* about vindictiveness (low calibration) and *more* about Truth (high calibration).

The result of this search is a comprehensive understanding of what this life means, on planet Earth. This understanding & research led to the condition known as **non-attachment**, which gave me the gift of what I describe, as *Absolute Freedom*. For these things, I am grateful.

As always, guideposts occur in our lives which direct us to ‘situations’ & individuals that are there for our highest good. These guideposts are set up by our higher selves, in liaison with our guides and God Himself. The direction available to us comes from people, books, ideas, articles, suggestions, circumstances, etc.. Given our busy lives, and the incessant presence of *ulterior motive* programming, the vast majority of these messages seem to go unnoticed. But still, when we miss one, another is set up in its place. Establishing a firm connection to the *heart messages* is a huge step in moving toward a higher Reality, for ourselves. I go over the access to heart messages (aka intuition), in some of my videos.

This comprehensive understanding of life, also gave me an understanding of how we have got to this place, as a planetary species. When an understanding of this nature is achieved, the litmus test on its validity, is revealed by an utter lack of urgency to act, or think that there is any urgency to *correct* a situation. I use the word ‘comprehensive’ because of the broad-based nature of the elements necessary to understand the term, “*Settled in Light & Life*”, and how it applies to our planet. For that I begin with a history lesson –

## The Lucifer Declaration of Independence

My research is partially comprised of approximately *4500 pages* from three books, which are referenced at the end of this Paper. From this, an understanding of what precisely Lucifer intended, in his proposal, when he decided to depart from universe Reality, is *pertinent* to this discussion.

His tripartite manifesto was as follows (abbreviated) -

- 1) He denied the reality of God,
- 2) He opposed the Local Universe government of our Creator Son Michael (Jesus), &
- 3) He attacked the universal plan of ascendant mortal training.

37 Planets were affected by the rebellion - In the 200,000 years that the rebellion was allowed to go on unhindered, not another world has been deceived.

But what is important to understand is how the deception has impacted the evolutionary development on our planet. Crucial to this is a full understanding of, the gift of Free Will, and how it applies to a population of several billion people.

Free Will guarantees freedom & joy to all who are endowed with it (all of us), when used in alignment with the Universe/God. When the guidance of Universe Principles is obscured by a corruptive and ulterior agenda, the devastation & falsehood that are apt to occur, is *precisely* what you have on our planet today. The importance of this great phenomenon cannot be understated - each and every one of us alive today, will go down in eternal history as participants, in the endgame of this procedure. At that point, the 'experiment' known as the Lucifer Declaration of Independence will forever hold a place in eternity, as an example of what such a false declaration, has proven to result in (pain & suffering for many).

The effects of how Free Will plays out, with a large population, over many millennia, is precisely understood by the extremes of *ever widening class distinction*. This, of course, is in conjunction with the lack of *Universe or God* Principles (i.e. morality, integrity). With this kind of leadership, any world population will come down to corruption, resulting in grief for the populace, in the way that find ourselves today. How this occurs, is by understanding the motivations of the general population, under these circumstances. When they are kept away from the Realities of the Universe, as long as the average person is able to comfortably survive, they are *not likely* to question these circumstances, or to reach for a Higher Reality.

So, historically, while a very small percentage of the population achieves "the gain of higher ground", again without the guidance of Universe Reality, it is the mass populace that 'pays the price', for the progress of this small

percentage (now known as 'globalists'). Without realizing it, this mass populace **IS** the very reason that the small percentage are able to make these huge gains (refer to the illusion of "duality"). This is confirmed by situations like,

- wages that no longer allow for a comfortable living (incl. the necessity of 2-income earners per household, circa ~1980's),
- the smashing of unions that were there to respect the rights of the common working class,
- increasing debt loads which are approaching the ridiculous,
- the extreme differential of financial classes which increases daily,
- the removal of choice by corrupt monopolistic entities within & without the government structure,
- etc.

So ultimately, it can be seen that the complacency of the mass populace will be largely due to the *lack of understanding* of the **Power** that is available to them, and the lack of sufficient disillusionment to *provide* motivation to look deeper. Very few individuals currently, utilize this Universe Power – and it is only by the reckless use of the Free Will that is available to them, that has enabled the 1% to dominate the world in such a fashion. This can be illustrated by a *simple example* – a person has attained a million dollars, by the efforts of his own sweat & blood... *what occurs* within that person, by virtue of a need, to increase that fortune to 10 million or 1 billion dollars? Given that this vast increase of concentrated wealth has come at the hands of a large number of people's detriment (oppression), in most cases, is *precisely indicative* of being guided by principles, that do not align with Universe Reality. And this is **not** to say that achieving great heights of success is counter to God's Power and Universe Reality – **it is the absence of Universe Reality in the gaining of this success that has given us our reality of today**. Dostoyevsky helps us here – "Where there is no God, all is permitted".

The conditions present currently, are **exactly** the results of this kind of behaviour.

### The Fork in the Road

Every evolutionary sphere will go through stages of annihilation, triumph, success & disappointment, as we historically have had, and do have, here on Earth. What is different with our evolutionary approach, and that of another 36 inhabited spheres, is the influence of the Lucifer declaration. It could be posited that the 'normal' transmission/dispersal of Universe Reality (knowing & understanding God), would have occurred many thousands of years earlier, *if it weren't for this declaration*. When the establishment of **Universe Reality** finally comes, the planet is said to be, "**Settled in Light & Life**". Once this occurs, the planet is secured in the eternal presence of

Love & Light. The planetary inhabitants are no longer susceptible to gross falsehoods, should they even occur, due to their direct connection with, and guidance from, Universe Reality/God/guides. **Peace & Harmony** become the norm, and not a single individual, wants for anything.

As events unfold in our near future, it will be revealed that a major lack of liberty & freedom, that will be imposed upon the world's population, will be the *ultimate trigger* to **seek** a higher level of understanding ("sufficient disillusionment" occurs). This understanding will include the definition of Free Will, Who endowed us with these gifts, and how it is, that a few of us have used it to *exploit*, rather than to *improve*, the global situation.

Life, (true) liberty, freedom & Love is merely a heartbeat away. It will occur when the pressures of an absurd agenda become great enough to dislodge the thought patterns that have been regarded as normal, up to this time. Indeed, the Urantia books' 1800 pages can be distilled down to two simple points. These points are the *only ones* needed to move the world population into overcoming the agenda of the *few*, who incidentally, do not follow the points themselves. It is by the strict allegiance of these points that Light & Life will dominate:

- 1) The Fatherhood of God, and
- 2) The brotherhood of man.

## Conclusion

In conclusion, here are two quotes from the Urantia book which pertain to the discussion of this Paper:

"Only when man has become sufficiently disillusioned by the sorrowful disappointments attendant upon the foolish and deceptive pursuits of selfishness ... will he be disposed to turn wholeheartedly to the gospel of the kingdom, the religion of Jesus of Nazareth." [195:9.7 \(2083.3\)](#)

This, of course, is the allegiance to Universe Reality.

"Mortal man is neither a helpless slave of the inflexible sovereignty of an all-powerful God nor the victim of the hopeless fatality of a mechanistic cosmic determinism. Man is most truly the *architect* of his own eternal destiny." [103:5.10 \(1134.8\)](#)

Further, if there is any advice that will put a person at ease with the absurdity of current times, it would be this, also from the Urantia book:

"The universes are engaged in an orderly, well-understood, and perfectly controlled processional, swinging in majestic grandeur around the First Great Source and Centre and his residential universe." [15:1.1 \(164.4\)](#)

Lastly,

Who knew that in 1968, John Finley was a prophet for the current day, when he penned the verse that occurred in the song, "Let Me Serenade You" by Three Dog Night -

    "...and when the walls begin to fall,  
        can't hold back the joy,  
        that Love will conquer all!  
        Every moment...Every day."

John Finley illustrated for us, what is occurring today, 54 years ago!
