

Paper: “SETTLED IN LIGHT & LIFE” – Planet Earth’s Glorious Future!

Date: 11 Oct. 2020 (rev. 17 Jun 2024)

By: D. R. Shearer

Topic: The term “Settled in Light & Life” comes from an 2000-page, *channelled* journal called the Urantia Book. This planetary condition, and the indicators that are present, tells us that we are in the *final* phase of this phenomenon. This Paper is a summary of these things. Fundamental Christians may refer to this process as “establishing the Kingdom of Heaven on Earth”.

Introduction

The Urantia Book is an exhaustive account of

- a) our beloved planet’s (Urantia’s) history,
- b) God, the Grand Universe & the Local Universe, and
- c) a day-by-day account of the Earthly incarnation of the individual known to us as Jesus (aka Christ Michael; Michael of Nebadon).

The thing that I have always appreciated about this journal is the fact that there is *not one iota* of *guilt* or *fear* impressed upon the reader. The exact opposite - unconditional Love and unmitigated Mercy - is all that the reader will uncover within the 1,846 pages (original version). From this, not only is a serious sense of strength & confidence gained, but also a comprehensive understanding of life, ‘destiny’, and the universe, is available.

Some have claimed that this writing must be the work of the “devil” (given that it is not the Bible I guess?). The ironic thing there is exactly this - Funny how the work of the “devil” brought me to a **solid, uncompromising** and fully **dedicated** position of clarity over the Entity known as God and His Creator Son, Christ Michael (aka Jesus of Nazareth). The conclusion here is that this ‘work of the devil’ must’ve failed 100%, based upon where it led me to dedicate my life - to God & the brotherhood.

When a person begins to understand the true nature of God, in spite of the negative, low vibration attributes that have been ascribed to Him, through guilt-ridden orthodox/fundamentalist religion, a whole new level of Peace, Love and Freedom emerges. The elimination of **guilt** and **fear** is a wonderful & necessary place when an individual aligns themselves with the principles* of the Universe. This applies especially to current times when falsehood continues to rule the lives of the masses, with ever-degrading results.

* Universe Principles = following the higher vibration states of consciousness (Love, Unconditional Love, Peace, Joy, Bliss, etc.). See also, "Put another way..." following. See also references, for clarification of this issue, at the end of this paper.

"Settled in Light & Life" - a Definition

Proposal - We have been led to believe that planet Earth may be the 'centre of the universe' and that there may be no other life 'out there'. Two things about this *proposal*:

- 1) This programming, along with the mass prevalence of 'groupthink' on this topic, is curious at the least, and insidious/corruptive at the other end of the spectrum, and
- 2) The Reality of the structure of the Grand Universe which includes our Local Universe is **EXACTLY** the opposite of this '*proposal*'!

I have started the definition with these points because it helps to understand the relative nature of planet Earth to the Local & Grand Universe.

All the evolutionary spheres in the Grand Universe, are in various stages of ascending to higher levels of consciousness, with the culmination being a condition known as, being "Settled in Light & Life". As decimation, annihilation and 'hard knocks' learning is common to the raising of consciousness, Urantia (and 35 other planets within our Local Universe) have had the extra complication of tarrying with the effects of the Lucifer "Declaration of Liberty".

While this *added complication* has caused undue hardships and duress, it DOES NOT carry with it any Power, whatsoever, to erase or alter, our destiny toward Light & Life. How do I know this? Because absolute Power is a universe property which is available to each and every Son of God, whether of Divine origin (such as Michael, Lucifer), or creature origin (such as most living, breathing souls on Urantia). It is in this way that we are *all regarded as equal, in God's eyes.*

So, the definition of being Settled in Light & Life is given in over 50 Urantia Book quotes. Here is one:

55:5:2 (629.11) The advanced stages of a **world settled in light and life** represent the acme of evolutionary material development. ... Poverty and social inequality have all but vanished, degeneracy has disappeared, and delinquency is rarely observed.

"Settled in Light & Life" - How to Assist Humanity & Our Planet

How it is that the individual can gain access to the higher realities of Light & Life could be summed up as follows - when a planetary race understands and embraces the complete Reality of aligning with Universe principles*, along with the attendant Power of the Universe that resides with this, they will

accompany their planet (co-create), in the *imminent* AND *eternal* destiny of being **SETTLED IN LIGHT & LIFE**.

*Put another way, simply adhering to these tenets (aka Universe Principles):

- 1) The Fatherhood of God, and
- 2) The brotherhood of man,

will guarantee an individual's destiny *and* also greatly contribute to exalted planetary destiny.

If this seems too simple, I assure you it is Powerful, nonetheless. It is simple, pure, perfect, free and whole, as God intended it to be. Force (force) is weak, very costly and must be *imposed, incessantly* upon people, whereas true Power comes with Truth, which is free, clean, simple & optional... as it stands *silently* by, available to all.

"Settled in Light & Life" - Current Indicators of Earth's Alignment

There are many indicators, globally, right now, which tell us that we are on a distinct path to bringing Urantia/Earth into the Light. Three of these indicators serve as examples and are as follows:

1) A Global Phenomenon - The very nature that our dear planet is going through a truly global disturbance/disruption is a telltale sign that whatever the result, it will be a of global magnitude. This much is certain. Pertinent here, is the enhanced perception by everyone that this is indeed, a global event. This inherently carries a certain level of natural unification, and a collective consciousness enhancement. This is the starting point of the process, even if the majority are not cognizant of the process or potential results, at this point. Unity is the key.

2) The Rise of the 'G' Word - Everywhere you look, on the side of Truth, you are hearing the word "God" carried into conversations and on placards. Orthodox Religions (including Christianity), have been altered to the point of actually turning people away from God, in many cases, for a long time now. Proof of this is the impending collapse of the Vatican. This is, in part due to the fact that the emergence of higher levels of consciousness within the human being, will no longer agree to side with a Deity that has been maligned with 'less than human' attributes (fiction: wrath, hate, judgment). So, almost by default, during these times of *duress* and *falsehood*, as evidence that reveals the true nature & character of God emerges, it brings new and previously resisted support, back into the picture.

This move is experienced amongst sectors of the population (scientists, rational thinkers, etc.), who would normally *not* allow abstract concepts (ones not 'scientifically' proven) to come into their cognition. The recognition of God, in many current discussions, whatever they may be, is finding a place...

more so than in recent times. As alignment with the Universe (God) has the full Power to predicate, and usher in our New Earth, this enhanced recognition is completely congruous with what is occurring on the planet now.

While some are holding onto old notions of a vengeful God Who will 'vanquish their enemies', it is merely an update that is necessary, to make this transition cleanly. Authentication of this update is fully reflected in the concept WWG1WGA. For those unfamiliar with this, it stands for "Where We Go One, We Go All". This originated back in the John F. Kennedy days (early 1960's) and reflects this perfect concept - If God Loves all his children equally, we would be mistaken by assuming that some should be left behind, or otherwise uncared for (including the 'evil' ones). This may be a *road block* for some, but higher understanding of the Universe and God's ways, has the Power to obliterate that very blockage. This will be revealed to those who are open to it.

3) The Nature of Millions in Protest

The nature of the peaceful, but unrelenting attitude emerging from protests, where more than a million participants turned out, is a *sure* sign that people are NOT interested in *repeating* history - that being the response to force with force. People are recognizing, and choosing, the higher alternative to the *weak and corruptive* implementation of *force*. Aligning with the Universe draws down God's Power, which has multiple advantages, when it comes to overcoming force.

A person known as Michael Ballweg (Germany) has been responsible for the assembly of great numbers of peaceful, but defiant, protesters. At one of these gatherings a 30-foot poster of the head of Mahatma Gandhi was clearly displayed. This is an *absolute sign* of properly learning from the Power examples of our history. Clearly, Mr. Ballweg is wielding some serious Power directly from the Universe. And M.K. Gandhi calibrated at 715/1000 - rare for this planet.

When we all understand that the **force** that is being exerted currently, is merely a tool to *create division*, and *suck us into* responding with **force**, the game is over. Those that participate by responding to force with force are unfortunately not understanding the magnitude of true Power. These instances can't be helped, if people will not listen - these isolated circumstances will resolve themselves in their own way - once again, as the Truth stands by silently. And the great thing is, by way of Ballweg's leadership and other means, the world is getting it!

Conclusion

My lifetimes' research is based upon multiple check systems, utilized in navigating the polluted waters of programmed & perpetuated falsehood that has been prevalent during the past couple of centuries (or longer). My research has always been guided by one single purpose – “Give me **only** the highest level of Truth possible”.

A foundation (personally) was created, in this journey, during the period 1998 to 2012, and consisted of the 3 books the references, below. This foundation was enhanced by a real-life experience, which launched my wife and myself into a condition known as “non-attachment”. It is from experiencing this state that a condition that I call ‘Absolute Freedom’, can be enjoyed.

With regards to this Paper, our planet moving to an eternal position of Light & Life, is an utmost certainty. My research that exhibits this phenomenon is *fully* augmented and supported by the research & clinical findings of Dr. David Hawkins. It is *expressly* by the clinical evidence that Love overcomes the lower calibrations (hate, fear, guilt) by 750,000 times, that *makes this so*. It is only by the simple recognition of this fact, leading to the growth of a *critical mass* segment of the population, that will secure & confirm our beloved planet Earth to being..... SETTLED IN LIGHT & LIFE!

{aka the Establishment of the Kingdom of Heaven on Earth}

The general flavour of the narrative (and of unification), by those promoting Truth, is the condition that fully indicates that our glorious destiny is nearby. And do not forget: the Truth will *always* be standing by silently, for all who wish to access it.
