

Paper: The Great Culling of 2024 – What To Do About It

Date: 24 Mar. 2024

By: D. R. Shearer

Topic: A clear perspective is now available on not only how the past 4 years are to be best analyzed, but also what 2024 represents, given the larger picture:

The past 4 years

The past 4 years, viewed from the perspective of someone who mostly understands what is occurring (& why), before humanity, could be viewed as a frustrating and sometimes painful duration. While this may certainly be true, in some folks lives, there is a greater meaning to this time. This greater meaning (of the 4 years) is crucial to the process that humanity and dear Mother Earth are going through, currently. March 2020 to March 2024 was the explicit development of a foundation of benevolence, by a good percentage of the population. It was initiated by the “trucker rally” in Ottawa, Canada and is now underway as approximately 17 EU nations farmers are challenging their respective governments. In some cases the police, fire and others are also joining in the revolt. Damage to property is occurring in some instances, but that is due to the various government bodies not responding to rational discussion.

In keeping with M.K. Gandhi’s **satyagraha* (the 2nd principle), no human violence has been used in these resistance uprisings. This is **important** given Gandhi’s success in overcoming the odds against a large oppressive regime.

2024 Distinctions

The key factors from the past 4 years which help define this new year are:

1. Generally, the masses remain to be compliant, in spite of grossly elevating absurdities (i.e. the headline – “Even One Day of Sunshine Can Increase the Risk of Heart Disease Scientists Warn”).
2. Indicators point out that this year the casualty rate of the mass population goes as high as 78.5% for a country. This aligns with point 1.
3. Indicators also point out that, as of 15 Nov. 2023, the human population is now in the direct presence of “diving personalities” (aka Divine intervention). This is in keeping with the, previously unheard of, *violation* of free will.

Overview of 2024 and Beyond

Based upon the certain uniqueness of the situation now taking place on planet Earth the realization that transformation is taking place, is an apt proposal. Historical research, along these lines, reveals that:

- a. the self-annihilation of evil is in the end stages, and

b. the dawning of a new era that is the establishment of the “Kingdom of Heaven on Earth” will follow (aka a condition where a planet is “Settled in Light & Life”).

Conclusion

The points made in this document are backed up in the references section. The disruption, devastation and pain that humanity must go through is a direct symptom of a larger society that has been following false principles, now for several centuries. This can be seen as the seeking of financial gain over the health & welfare of the population or the environment, in many cases. From another perspective, a large part of affluent society is in that state by way of false foundations – professions, jobs and entire industries that have no substantive beneficial basis at all. Just because we have lived with these ‘institutions’ does not necessarily mean they are *legitimate*. The disruption experienced is the result of this realization and other things.

Beyond 2024 – continuing to stand with Truth, Love & Integrity is all that is required to become active members on a planet that is saturated with eternal peace & freedom, under the will of the Father.

The presence of ‘off-world’ support:

The Holy Bible – King James Version

“For the earnest expectation of the creature waiteth for the manifestation of the sons of God.”

Romans 8:19

The Urantia Book – the whole paragraph alludes to *presence* – urantia.org

“Such faith-liberated sons have certainly enlisted in the struggles of time on the side of the supreme forces and divine personalities of eternity; even the stars in their courses are now doing battle for them.”

*Mohandas K. Gandhi – Satyagraha:

- 1) Satyagraha is a weapon of the strong;**
- 2) It admits of no violence under any circumstance whatsoever; and**
- 3) It ever insists upon Truth.**

Lastly, there are a few paragraphs, from the Urantia Book which ‘balance the books’ as far as truth becoming victorious against the backdrop of evil, supported by trillions of dollars. While it may be difficult for some to realize that overcoming evil, at this time, is a certain conclusion, these paragraphs illuminate this Reality. And as those who continue to stand with truth, love, integrity, etc., knowing of assistance will aid in the process:

101:10.8 (1117.2) When you experience such a transformation of faith, you are no longer a slavish part of the mathematical cosmos but rather a liberated volitional son of the Universal Father. No longer is such a liberated son fighting alone against the inexorable doom of the termination of temporal existence; no longer does he combat all nature, with the odds hopelessly against him; no longer is he staggered by the paralyzing fear that, perchance, he has put his trust in a hopeless phantasm or pinned his faith to a fanciful error.

101:10.9 (1117.3) Now, rather, are the sons of God enlisted together in fighting the battle of reality’s triumph over the partial shadows of existence. At last all creatures become conscious of the fact that God and all the divine hosts of a well-nigh limitless universe are on their side in the supernal struggle to attain eternity of life and divinity of status. Such faith-liberated sons have certainly enlisted in the struggles of time on the side of the supreme forces and divine personalities of eternity; even the stars in their courses are now doing battle for them; at last they gaze upon the universe from within, from God’s viewpoint, and all is transformed from the uncertainties of material isolation to the sureties of eternal spiritual progression. Even time itself becomes but the shadow of eternity cast by Paradise realities upon the moving panoply of space.
