

Paper: The Ubuntu Spirit – A Blueprint for a Planet that is Settled in Light & Life

Date: 26 Dec. 2023 (rev. 17 Jun 2024)

By: D. R. Shearer

Topic: As humanity emerges from the ashes of its history it is helpful to define what is next. The details of the Ubuntu spirit happen to do this job very well. It is the precise *blueprint* for what it means to being “Settled in Light & Life”.

Introduction

The Ubuntu spirit comes from the Zulu peoples of South Africa. It essentially states, “I will be happy when everyone is happy”. Stated another way, “When the happiness of others is your paradise”. An (African) Ubuntu story -

A group of children were approached by a well-meaning visitor who stated that, “there is a bag of candy tied to a tree over there. The first one to it gets the bag of candy”. The children all looked at each other, grabbed each others hands and walked calmly to the bag of candy to divide it amongst themselves. When asked by the visitor why they acted that way one of them said, “We can’t be happy unless everyone is happy”.

This **is** the Ubuntu Spirit.

Earth’s Conundrum

For whatever reason(s), our existence as of 2023 includes a wide separation of the ‘classes’ that leaves a condition where *lack* (of basic necessities) is the norm for an increasing number of folks, and *massive abundance* is the norm for a few of the others.

The details behind the reasons of how our society has moved into a condition of such disparity is a topic for another paper. Some of these reasons, however, can be found in the materials of the references section, below, for those interested.

This paper and the goal of the KOHOE Foundation is to focus on the production of a new societal structure that recognizes the beneficial attributes of the Ubuntu spirit and the establishment of the Kingdom of Heaven on Earth [aka being Settled in Light & Life].

Emerging Collective Consciousness – The First Necessity

It is distinctly by the elevation of collective consciousness, across the globe, at this time, that conditions the soil and makes possible, the Reality of a New Earth. The capacity to capture the concepts of this movement to a better Reality are indeed only possible by the elevated consciousness of the individual, *culminating* in the effects collectively, to make change happen. These concepts are, for example, co-operation rather than competition, as the dominant, general attitude among the population.

Following the Truth – The Second Necessity

This is also a critical component of establishing a new Earth where everyone is happy. It is rooted in what can be termed “unity consciousness”. The elevation of consciousness (to unconditional Love) allows for the understanding of basic Truths to be applied in the forward progression of humanity. The mistaken belief in *duality*, is the heart of the problem, that has led our existence to where it is now. Knowledge and understanding is the path to overturn falsehood and allow for a future that is beneficial to everyone.

Where Does It Start (Global Reformation)

With the individual. Complete global reformation begins with the empowerment of the individual. It can be fully demonstrated that the *dis-empowerment* of the individual has been accomplished (largely) by the propagandized control of the masses. The other element to dis-empowerment comes from the level of consciousness that a person chooses, or is conditioned to calibrate at. This concept is tied directly to the allegiance (or not), of the personal intuition. External programming is only responsible up to a point of any exposed individual’s alignment to their own internal guidance system – *the intuition*.

How Does It Start (Global Reformation)

With knowledge & understanding. We are all in this together. Many of us have made mistakes. This leads to forgiveness and the elevation of consciousness to unconditional Love. Once this foundation is established it may be helpful to know that there is a book that details the Ubuntu philosophy and thereby provides a blueprint on how it applies to our current world. This book, by Michael Telling, is the first entry in the references list.

The establishment of the Kingdom of Heaven on Earth is only one powerful free will choice away. Being prompted to make this intentional move is all that is needed. By submitting consent at gpms.world, humanity will reform the living conditions for each and every one of us, with eternal peace, freedom & abundance for all, being the result.

This is progressing before us all currently.
