

**Paper:** [Understanding the Holy Trinity](#)

**Date:** 23 Dec. 2021 (rev. 16 Jun 2024)

**By:** D. R. Shearer

**Topic:** Not unlike many 'religious' topics, the characteristics of the Holy Trinity may be unclear or vague, for some people. The books in the reference section of this Paper bring forth a clear understanding of the Trinity and how 'It' operates in conjunction with an evolving sphere such as planet Earth.

Understanding the Trinity is only a *portion* of the body of Truth that has the ability to bring unconditional Freedom & Peace to the individual, and by extension, indeed any planet. A visual aid on this topic is represented by the diagram attached. The following text is intended to add clarification to anything within the diagram that isn't immediately clear.

#### The Tripartite Definition

**The Urantia Book [UB]** – gives distinctive detail on the following topics:

- 1) The structure of the Grand Universe (comprised of the Central Universe and the 7 [satellite] Super Universes),
- 2) An almost day by day account of the Creation of our planet Earth (aka Urantia),
- 3) An almost day by day account of the life of Jesus (trans-formative information).

**A Course in Miracles [ACIM]** – is laid out, by way of 6 sections (including a daily workbook), as what I would describe, a "*manual for life*".

As such, the UB delves into a number of different areas that ACIM (manual for life) does not get into. There are a couple of main ones to cover. As far as I could discern and from my 117 pages of categorized notes on the 2 volumes (55+62), ACIM does not get into the details of the presence and conduct of the third entity in the Holy Trinity, the Eternal Son. It rather speaks of the 'Sonship', as a collective singular entity, which we are all a part of [one unified body].

In keeping with this mindset, ACIM also does not bother with the differentiation between what is referred to in the UB as "Divine-origin beings" & "Creature-origin beings". I can only suppose that the reason for this intentionally missing

text is to impress upon the reader that all Sons of the Father are indeed equal. In ACIM, Jesus particularly relays this sentiment, in that He declares that He has no Power over us, because even though He is of Divine origin, our dear Father **does regard us all as equal**.

Does this 'omission' in ACIM mean that there is somehow a deficiency? I would say not. My interpretation of this difference, given my 25 years of study on these volumes, goes directly to the particular descriptions that I gave in the beginning of this Paper, on the two. They are separate writings/channellings that feel extremely authentic, each covering a separate aspect of Reality (vs. our 3D *reality*). This feeling is with the consideration of knowing both texts in explicit detail, and the fact that there is no opposition between the two.

### Progeny Considerations

The UB utilizes specifically the 3 individual [head] figures in the Trinity (Father, Son, [Holy] Spirit) when alluding to the progeny of the individual various classes of Universe beings.

For example, the Creator Son classification (Jesus' class; ~40,000 in number) is the offspring of Trinity Origin (the offspring of all 3). Many of the *high-level* categories of Universe Beings are Trinity originated.

The subject matter of progeny is not something that A Course in Miracles delves into.

### Love & Mercy

It may be considered that, aside from the Trinity (of which we are apart of: 'the Sonship'), the only other items in existence are - Love & Mercy (derivations include Peace, Joy, Freedom, Compassion, Tolerance, Humility, etc.). This happens to be a powerful consideration when it is corroborated with David Hawkins chart of consciousness - specifically when we refer to the sub-200 positionalities as being *false*, or having a *false foundation*.

How Love & Mercy fits into the 'grand scheme of things' is exactly this: the Father is Love, and the Son(ship) **is** Mercy. The Holy Spirit is exactly the [boots on the ground] Administrator of said Love & Mercy.

The takeaway here is that as part of the Sonship, we as 3D 'creature-origin' **are** administrators of Mercy. It is by this understanding, as we administer Mercy to our brothers, that things like judgment or condemnation run counter to this ministry, and therefore absolutely are NOT part of our 'job description'. As mentioned, this corroborates with David Hawkins clinical & lab findings.

## Conclusion

The elements of the almost endless categories of Divine origin beings are obviously something too large for this Paper. Even the Urantia Book alludes to the fact that this topic is so great, that it cannot be wrapped up within a volume of 1800 pages, that the UB is.

While the details of the Grand Universe are obviously something that would resemble almost infinite intricacy, as Earth inhabitants we have at our disposal certain concepts that give us confidence/assurance of some of the conceptualizations that may be beneficial in understanding our "life".

There are many ideas & concepts within the many pages of the UB & ACIM that I have chosen to ignore. I have chosen to do this, because it allows me to focus on what I consider to be pertinent information in managing my own life and my understanding of it & universe 'operation/administration'. It also, of course, helps in the understanding of the 'situation' that our dear planet is currently well immersed in and has been over the past 40 months. The impending result of the 'situation' that we find ourselves in, according to the Urantia Book, is the process that all evolutionary spheres will all get to in time - a condition known as being "Settled in Light & Life".

If the content of this Paper [The Holy Trinity - understanding] adds any confidence for the reader, on the matters discussed in the previous paragraph, then I would consider the process successful. If this does not occur, I could only suggest that such a large topic, as understanding the Trinity & the other Universe details could hardly be properly conveyed in the 2 volumes of 3,402 pages, let alone a simple 4-page document. This does not detract from the power, authenticity or veracity of the information.

## Final Words - Free Will

**We are not alone!** The utter immensity of the Grand Universe (one billion planets in the Central Universe alone!) lets us know that, while this planet is being manipulated by some misguided beings/energies, *that* is of minor consequence to the vast numbers of beneficent Universe Beings [and their Love energy] who are there to continue guiding & assisting us. There is only one important thing to realize on this matter - any spirit guide or being, right up to and including God Himself, will **NOT** impose Themselves on our powerful gift of Free Will. So, in order to receive assistance, as we all move forward in the settling of the planet, we must open the door by way of Free Will, to this Universe assistance, *if we see fit to do so*.
