

Paper: “Why Do Bad Things Happen To Good People?”

Date: 05 May 2020 (rev. 17 Jun 2024)

By: D. R. Shearer

Topic: “Why is the world in such a state of turmoil now?” and “What is the solution to this dilemma?”, have the same answer. It is contained within this document. We just need to wake up to it.

Preamble

Direct answer - “Why do bad things happen to good people?” karmic resolution. It simply is the result of an *ever-declining* situation that began a long time ago, both individually & collectively, and is the result of legions of people aligning to *falsehood*. To a large degree currently, this is also the result of repetitive content via programming combined with, in some cases academic training. Sometimes it is harder to see this from a privileged, “1st world” viewpoint, and that is why, at this point in our evolution, it is *coming to our front door*.

Highest Truth answer - There is a higher Reality which transcends the limited concept of ‘karmic resolve/implications’. Karmic resolution is a notion from a theology which had never reached its highest potential, due to the death of its promulgator. The ‘highest truth’ answer unfolds in this document.

What’s Wrong with the Karma Model?

Simply put, the notion of Karma, does not bring forth the ultimacy and conclusiveness of the Power of God or Source. In other words, Karma is the 3D resolve of good & bad deeds, resulting in ‘a settling of affairs’. While this is a legitimate principle & experience, by which we learn how ‘life’ works, it is not the highest definition of who **God** is, or how **He** operates. It is essentially, “unfinished business”. And the ever-degrading attribute, is simply the result of unbridled & increasing evil promotion (including iniquity), as is being revealed to us today.

Love vs. Unconditional Love

Truly, the heart of the matter, starts right here (pun intended).

Looking at world history, the planet appears to be stumbling along, producing an ever-declining situation, as noted above. This is startlingly noted when one observes the paradox that is - North America spends the **most** on healthcare (on the planet), yet is also the proud owner of the **highest** “disease” rate (on the planet)(see “iatrogenic” death). This is being borne out by observing the workings of the highest levels of corruption & control, which is now coming to the forefront, for all to see. Any pain that occurs, including the ‘western medicine’ fiasco, are simply the result of the unbridled corruption that is present in the world today. Being an unaware member (promoter) of this corruption, even while not being cognizant of their ‘position’, does not absolve them of non-prejudicial karmic resolve. “Just doing my job” does not absolve an individual from participating in the harsh karmic resolution train.

From research into the higher, *non-linear* levels of consciousness, we now gain a deeper understanding, that takes us past the limited karmic model. The answer lay with the calibrations of Love and Unconditional Love. However, while the levels of corruption bear heavy on the world populace, the collective consciousness of that very populace, plays a huge roll on the results, that will play out. We all have the Power of free will, whether we realize it, or not. You can view collective consciousness as a massive ball of energy that looms over all of us. Not to say that, this ball is so dark. There are many benevolent individuals and organizations working diligently for the good of all. *But* it is the global sum consciousness, that we are concerned with here.

And the sum total effect, can be defined as the application of Unconditional Love (& above) on the planet at any given moment, vs. the negative vibrations of the lower emotional levels (sub-200 - see refs). Perhaps, the best way to define Unconditional Love is to look at what kinds of environments that it can't function in. Unconditional Love *cannot* function in environments,

- Where we will not allow the voicing of another's opinion,
- Where we assume that we know enough to call for vengeance for what we believe are misdeeds (this is a complicated & dangerous position to be in),
- Where trust in the security of a higher Power is lacking,
- Where judgments & vengeance occupy the mind, word and/or deed, to any level.

These are a few of the unfriendly environments that make it impossible for Unconditional Love to flourish on the planet - and they are, as mentioned, largely, programmed behaviours, leading to incorrect wilful decisions.

*** IT IS NOT WHO WE ARE! ***

Indeed, the difficulty allowing Unconditional Love to occur (partially) comes from the magnitude of insidious programming that has been both subversively and overtly present within our societies. This programming can be *understood* and *eliminated* by the common answer to the questions of the 'Topic'.

'Why is the world in such a state of turmoil now?' (*problem*)

'What is the solution to this dilemma?'

They both have the same answer, and that answer is the gift of **Free Will**.(*solution*)

The Absolute Power of **Free Will**

Gained from my studies, during my lifetime search for *Truth*, is that it is extremely *short sighted* to assume that God is not available, or assisting us, **during** times of great disturbance. No more is this true than in the ridiculous circumstances which are plaguing many humans on the planet now.

Quite simply, once a person understands just how important & absolute, the gift of free will is, and how it is the answer to both of the above questions... that person would never have to question God's *motivations*, ever again.

The Problem - Why is the world in such a state of turmoil now?

Answer – **Free Will**. The state of turmoil goes back many centuries and is reaching a serious *pinnacle* now. What originally started this problem, grew like a cancer (which is merely a symptom to alert us to an underlying condition), to where we are facing an insidious over control structure, now...that is overtly out of hand, now. A person need only look at the widespread absurdities which are everywhere to confirm this (Agenda 2021, [former] Georgia Guidestones, WEF, WHO, UN, etc.).

The *fact* that we have come to this global state of affairs, is directly the concentration of force in the hands of a **few**. Essentially, it is the *misapplication* of the gift of free will, in the hands of particular individuals, who partially understand the *force* that it wields. That, along with the false notion of duality, is how the rich get richer and the poor get poorer. When free will is used without the tempering condition of love/morality/ethics/integrity, you have an abusive & ever-increasing culmination of force, that will max out – i.e. **today's circumstance**.

“Where there is no God... all is permitted.”

Fyodor Dostoyevsky

The Solution - What is the solution to this dilemma?

Quite appropriately, the solution is the same as what caused the problem – **Free Will**. The beautiful thing is that the ones who are *being controlled*, **vastly** outnumber the ones *who are controlling*.

A swift and quick end to the problem at hand, will be applied when the populace elevates their own Free Will by combining it with the **Power** that is available from Unconditional Love. In order for this to occur, other than strict adherence to the previous sentence, the average person may need to understand how they have been manipulated into believing that they are *powerless*.

The information that is out now, is **fully debunking** these two concepts:

- 1) Invading micro-organisms are everywhere, and we have no inherent *power* within ourselves to handle this invasion, and
- 2) Our *saviour* lies in the concept that a some humans can produce a fluid to be injected into our bodies, and that will be the solution to our problems.

Whether, or not, you understand the implications and reality of the programming that has occurred, which is illustrated in the two points above, is relatively inconsequential.

What is consequential is that you understand that the application of your own Free Will combined with the application of Unconditional Love has the **POWER** to eliminate the *sum total of the lies on this planet, in the blink of an eye!*

The ‘Seeds of Destruction’ & Waking Up

There is a ‘waking up’ that is occurring on the planet now (aka “The Great Awakening”) where division lines are reaching massive proportions. This is a natural occurrence which is borne out of a situation where broad scale programming has been commonplace. The reason for this upheaval along with the

relentless intent by the people coming forth with Truth, is illustrated in the “Seeds of Destruction” hypothesis.

The “*seeds of destruction are contained within every evil thought/word/deed*” is the source & current product, of what we all are experiencing on the planet currently. There are many examples and nuances that can go with this paradigm, and they will not be discussed here, for brevity reasons. But it is important to understand that the relentless pursuit of **Truth**, emerging now, **IS** the germination & flowering, of those original seeds of destruction that have been sown, so many centuries ago. The fact that unchecked & rampant abuse of free will has reached insidious proportions, is exactly aligned in a **linear** fashion, with what is occurring, at present (the flowering).

This is fully and entirely represented in the dogged pursuit of the *purveyors of Truth*, where they will essentially risk all, to state their case. Never before in this planet’s history has such an intensive **Power** been pursued – and it is this Power and intent that will be the **enduring legacy** of this time period.

Conclusion

Generally speaking, what is occurring before us now is: because of incessant & precise programming... people need to be *sufficiently disillusioned* to be moved to a better course of action. It is the overcoming of cognitive dissonance that will be the resolve and it can be thought of as being ‘jarred awake’! During the current circumstances, there may *not* be enough disillusionment to move a great many into considering an alternative course of action (in other words, they still trust the ‘system’). When such a time occurs... when sufficient disillusionment reaches an impacting level, it will be helpful to consider the content of this paper, as follows:

The level of Absolute Power that is contained within any human being walking the planet, when aligned with the amazing gifts of Free Will & Unconditional Love, and which becomes the dominant collective body of the brotherhood, is so conclusive & Powerful, that the state of all prevailing negative affairs & falsehood... **will drift away like a feather in the wind.**

The upcoming & **impending** condition, that is the resolve of current affairs on this dear planet, is known as planet Earth being **“Settled in Light & Life”**.

The timing of its arrival, is merely up to the collective Free Will of the masses.

Update 22 Aug 2022

The conditions before us presently, after 30 months of revealed propaganda, are much different than when this circus began. The state of *sufficient disillusionment* reaching the masses, can be seen clearly, with the growing population that can be recognized by the term ‘fooled me twice, but never again!’ This is a clear sign of the seeds of destruction reaching their natural conclusion.

Update 07 Apr 2023

We are now in an Accelerated Truth-Emergence phase (see video relating to this phenomenon). With the release of information via Twitter and other material

relating to Truth (see refs - Dowd), it will not be long before those who have been aligning with & dedicating themselves and their careers to falsehood, will no longer be able to pursue that course of action. The solutions in this paper are here for all to utilize, if needed.
