

PASSIVE CO-CREATION
“WHAT YOU RESIST, PERSISTS”

Disclosure is crucial for a planet that is, and has been, driven by falsehood-for-profit, for a very long time. While it is important for a specific percentage of our population to acknowledge past atrocities, it must also be understood that this acknowledgement also puts us in a position of *passive co-creation*.

The remedy for this predicament is provided by two simple steps:

1. Acknowledge and/or understand that a nefarious activity exists, so that one knows enough to not participate in it, then
2. Remove cognitive & physical allegiance to the incidence, to the best of our abilities.

It is realized that certain participation in the old world (“matrix”) is unavoidable, in some circumstances. It is also recognized that a minimum level of courage is also required in some incidences of old world falsehoods. Again, we do what we can to stand up against falsehood wherever we can, to the best of our abilities. In this way we are full participants in the establishment of the Kingdom of Heaven on Earth.

FALSEHOOD

Planet Earth

2025 – 4 Primary Incidences

1. The non-existence of God and “divine personalities” or extraterrestrials.

- loss of hope – despair -

- this engineered cover up of truth, while seemingly innocent actually tops this list, not only because it has Luciferian roots, but also due to the proven damage that it has caused millions, in day-to-day life

see The Holy Bible KJV, the Urantia Book, A Course in Miracles

2. The existence of microorganisms in normal air to cause harm.

- fear - guilt - shame -

- this video series (4 parts) is put forth due to the **fear**, guilt and shame that is intentionally driving this scam – the only thing that tops its frailty is the amount of actual finances that keeps this whole charade alive

see Master Reference List & “Biological Truths” tab – www.rebuildthenation.ca

3. Government/legal & law enforcement/bankers

- fear of fake authority -

- this “nasty triad”, while accepted by the vast majority of society, including, of course those employed within the structure, is actually a self-serving, isolated society that dictates its own rules, no matter the harm, and enforces this harm upon the population – throughout the last century millions have been taken advantage of by this closed society – of course the damaged brothers & sisters alone on the streets and in the tent cities are a direct reflection of this truth that is coming to the surface – none of these organizations survive the New Earth by the simple administration of Divine Law – Do No Harm

see Tellingier’s book “Ubuntu - Contributionism”, gpms.world, Griffin’s book “The Creature from Jekyll Island”, etc. etc.

4. Climate change as a human-generated or otherwise phenomenon.

- fear - guilt -

- Atmospheric CO₂ = 0.04%; CO₂ is plant food – no plants – no humans – this is another conundrum as to how the masses could even remotely accept such a frail storyline as this one – it is truly a prime example of totalitarianism-style propaganda, at its finest

see “Climate – The Movie” on youtube

Conclusion

The imminent condition of the Kingdom of Heaven on Earth, also known as a planet being Settled in Light and Life, is eternal, once established. The ground-level, grassroots movement that brings forth this kind of peace, freedom and abundance, for all on Earth is in place and currently taking consents to achieve this mandate. There are over 318,000 of the global population as of this writing (02 Apr. 2025) and participating/consenting can be achieved at gpms.world.
