# Context

# Context

# Purpose of Today

- How we ended up here today
- Raise your Cyber IQ
- Not raise your paranoia

# Purpose of Today

- How we ended up here today
- Raise your Cyber IQ
- Not raise your paranoia
- Answer your questions
- What does your digital footprint look like?
- How can we protect our students, friends, family?
- How to make good decisions
- Trust?

The background is a complex digital environment with a blue color palette. On the left, a humanoid robot with a metallic, gold-colored body and glowing green internal components is shown in profile, facing right. On the right, a woman with dark hair tied in a bun, wearing a white business shirt, is shown in profile, facing left and holding a tablet. The background is filled with various digital elements: binary code (0s and 1s), bar charts, line graphs, and abstract geometric patterns. A large black circle is centered over the image, containing the word "Trust" in white. In the bottom right corner, there is a small globe icon and a list of services: "-INTERNET", "-LIVE CHAT", "-MEDIA", "-PHOTOS", "-VIDEOS", and "-MUSIC".

Its 2020

What have these apps done for  
us?

# Average hours per day teenagers spend on their mobile device?

# 7.4

# Gen Z

- Anyone born after 2001
- 1/3 of the worlds population
- Always been online / connected
- Most open to sharing
- Use cash only for 6% of transactions
- Venmo / Apple Pay most popular
- Most diverse group in history
- Least self-centered generation in history

# Influencer Culture

- 86% of Gen Z & Millennials would post sponsored content for money
- 54% Would become an influencer if they have the chance
- 12% Consider themselves influencer
- Micro Influencers (15,000 to 50,000 followers) average \$457 for a sponsored post
- 250,000 followers average \$3,766

# Top Influencers

PewDiePie

YouTube  
102 million subscribers

Ryan's World

You Tube  
22.8 million subscribers  
Made \$22 million

Cristiano Ronaldo

Instagram  
198.1 million

# What do these have in common?

# A fun summer story

# Dorothy's Audience

WORLD POPULATION

7,757,332,101

US POPULATION

332,032,436

# Today's Web Reality

- Reputation
- We are the content
- How schools handle incidents
- Internet Research

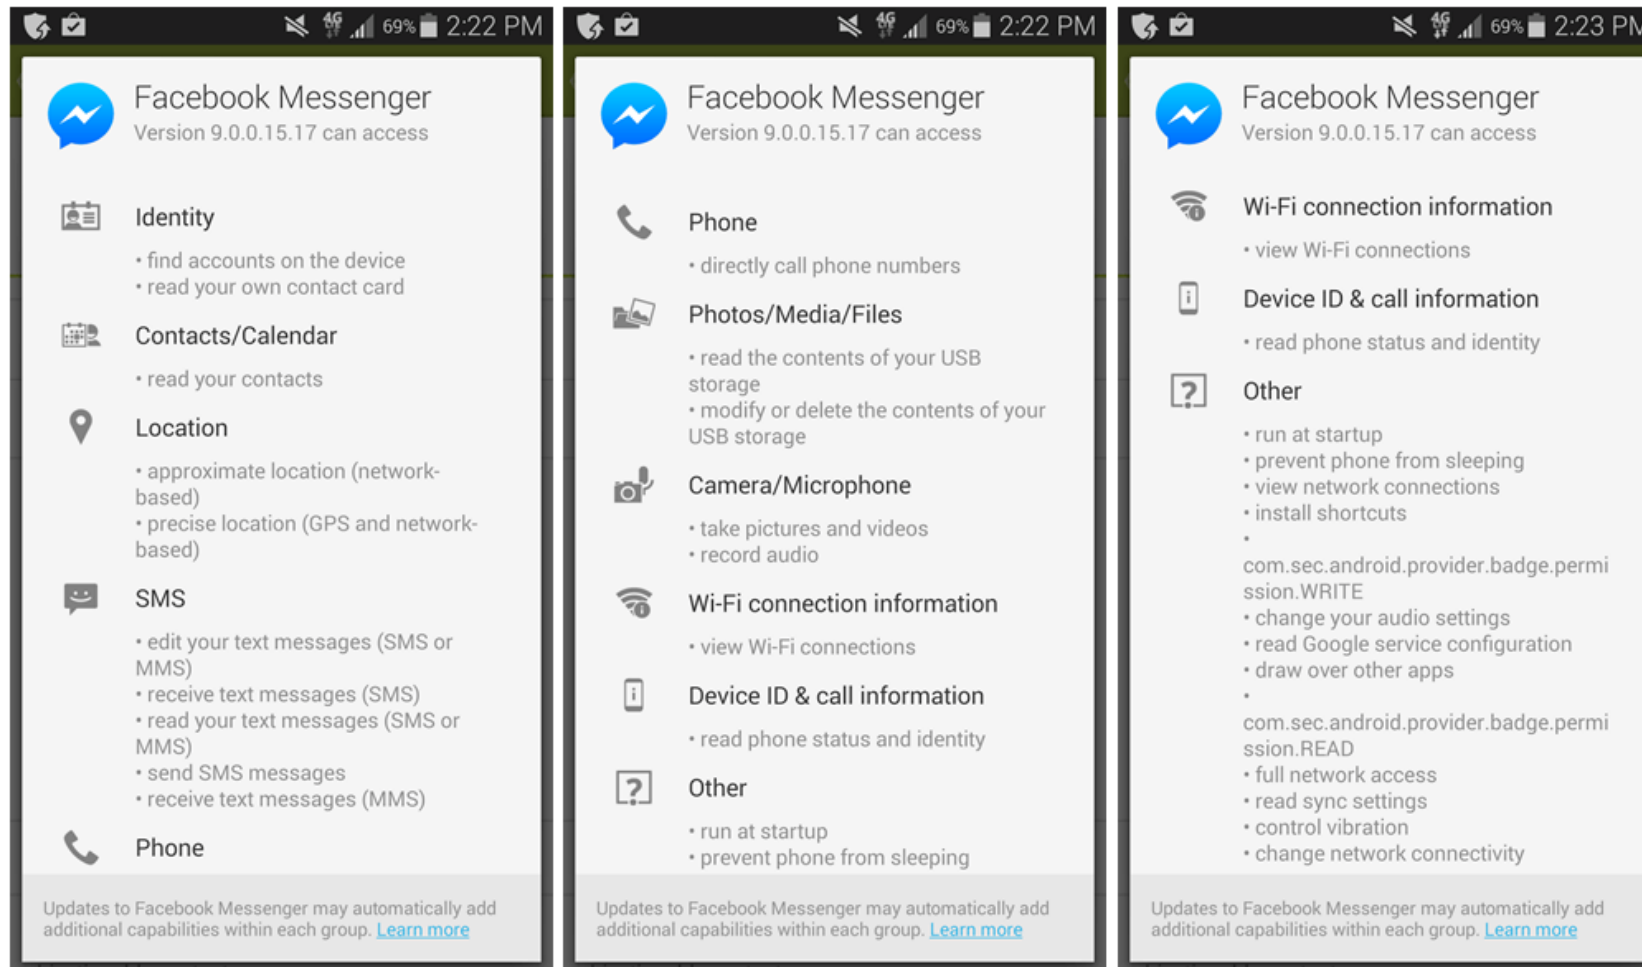

# So how does all this work?

- Why are Smart Phones GPS enabled?
- What do you use the internet for?
- Privacy / control
- What do you share on line?

# Installing Apps

# Instagram

- Owned by Facebook
- 1 billion people per month – 500 million per day
- 89% of users outside of the US
- 14% of US Adults use for their news source
- 52.9 million users 13-17
- Will earn \$12.32 billion in ad revenues in 2020
- Valued at \$100 Billion

# Instagram

- All photos are public and searchable
- Photos are also GPS tagged by default
- You can turn that feature off – Instagram now also asks you
- Anonymous accounts – Cyber bullying

# How MD has responded

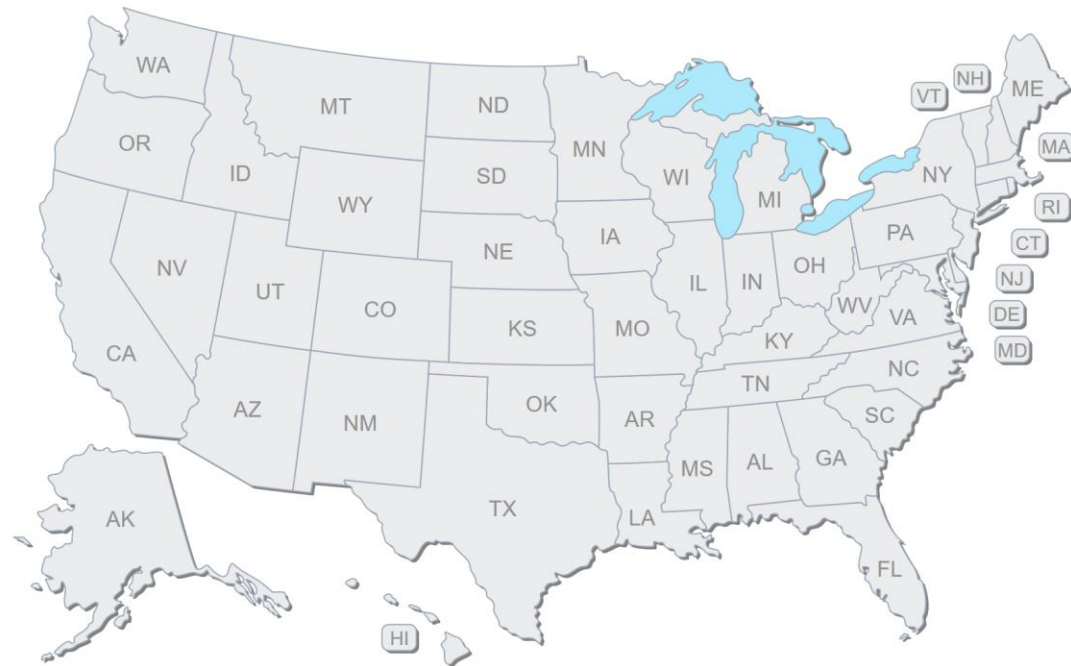

- Grace's Law
  - <https://www.peoples-law.org/bullying>

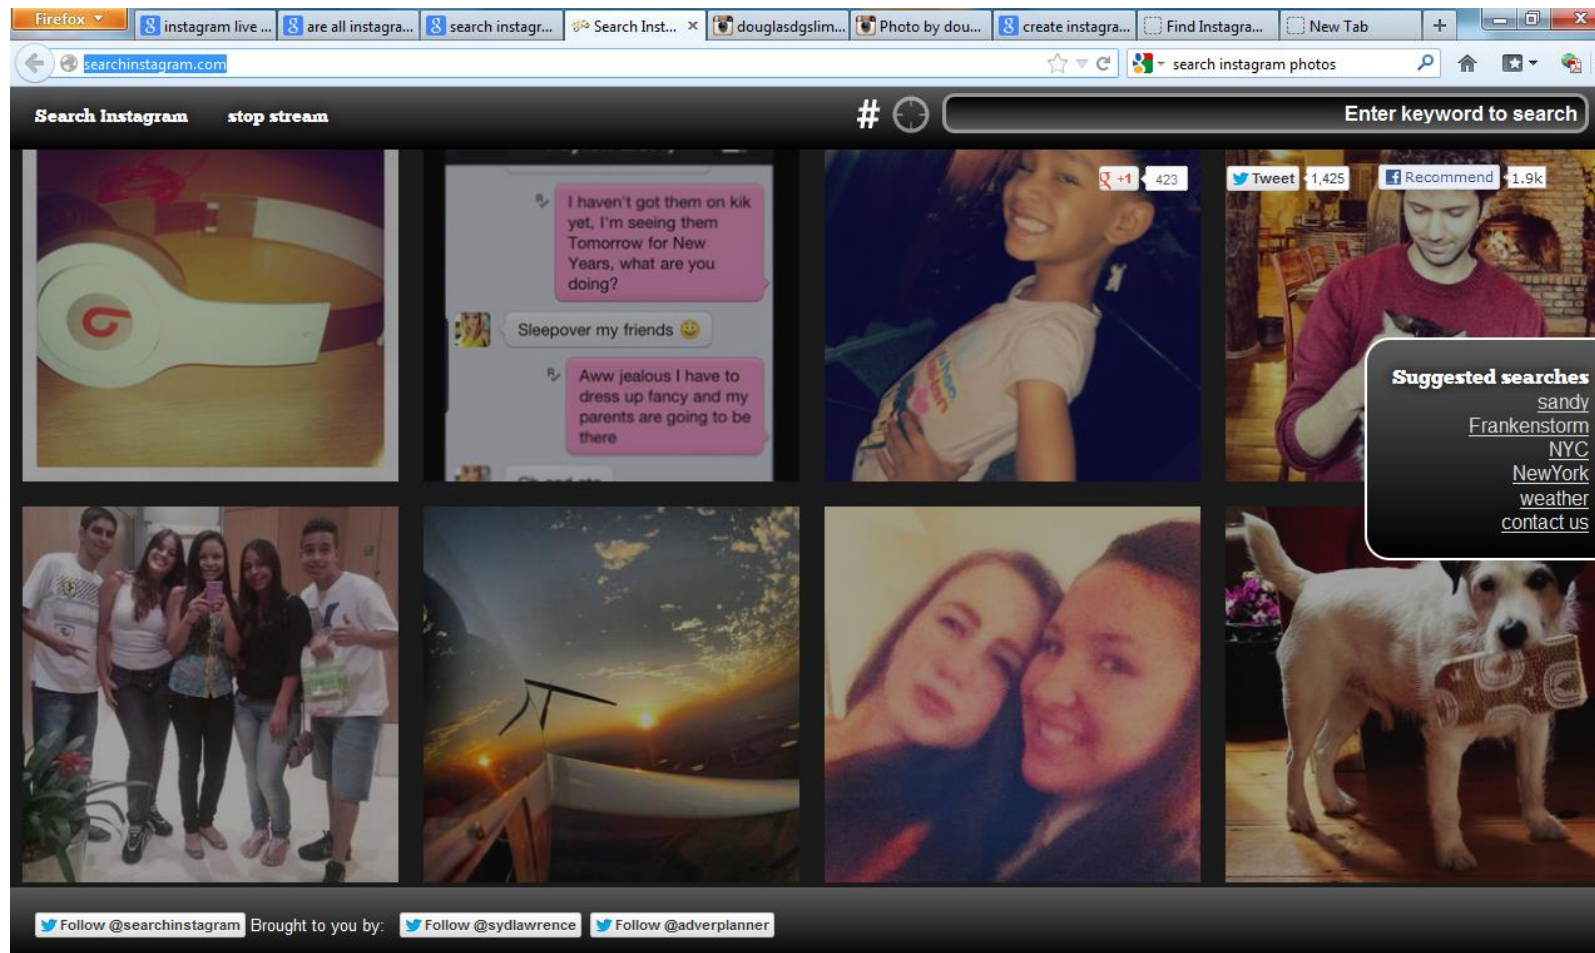

# Laws In Your State

- <https://cyberbullying.org/bullying-laws>
- All 50 States except AK and WI have specific cyber bullying laws

# Instagram

# Instagram

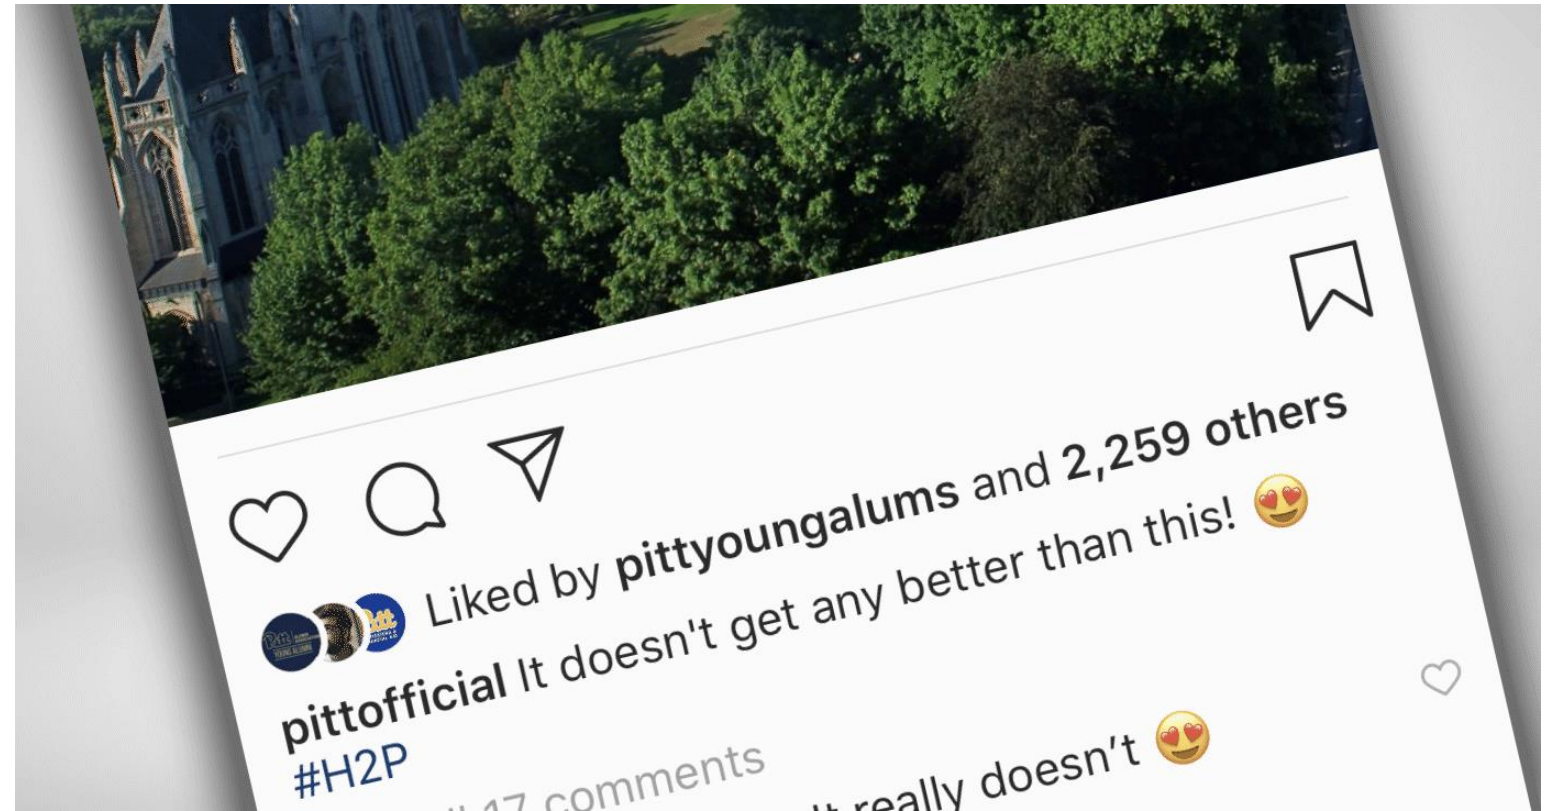

# Likes vs No Likes

- Likes create competition and comparison

What about removing Likes?

- Attempt to depressurize
- Make it less of a competition
- Reduce social comparison

<https://www.pittwire.pitt.edu/news/experts-weigh-instagram-hiding-likes>

# Memes

# Tik Tok

- Create short lip-sync, comedy, and talent videos
- Musica.ly v 2.0
- Look on YouTube for top TikToks of 2019
- Not sure they thought it would be public for all to see

# SnapChat

## Snapchat: Sexting tool, or the next Instagram?

By **Doug Gross**, CNN  
updated 11:02 AM EST, Thu January 10, 2013 | Filed under: **Mobile**

Snapchat is a fast-growing mobile app that lets users share photos and videos that quickly disappear.

### STORY HIGHLIGHTS

- Competition from Facebook Poke may have spurred popularity of mobile app Snapchat
- Snapchat lets users send images or videos that disappear after a few seconds
- Popular with young users, Snapchat has a reputation as a "sexting" tool

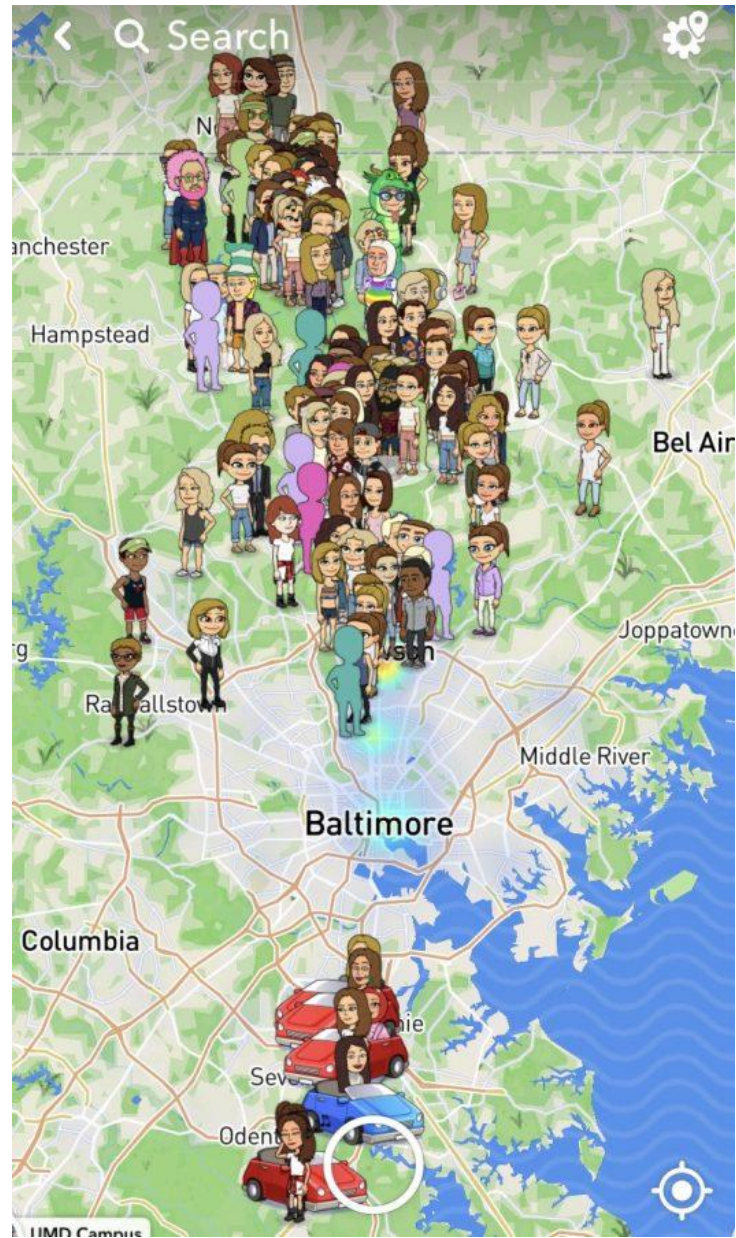

**(CNN)** -- You may not have heard of Snapchat. But if there are teenagers or 20-somethings in your life, it's a safe bet that they have.

Snapchat is a mobile app which lets users share images or videos that disappear after a few seconds. That's right -- they vanish forever in the time it takes you to read a tweet.

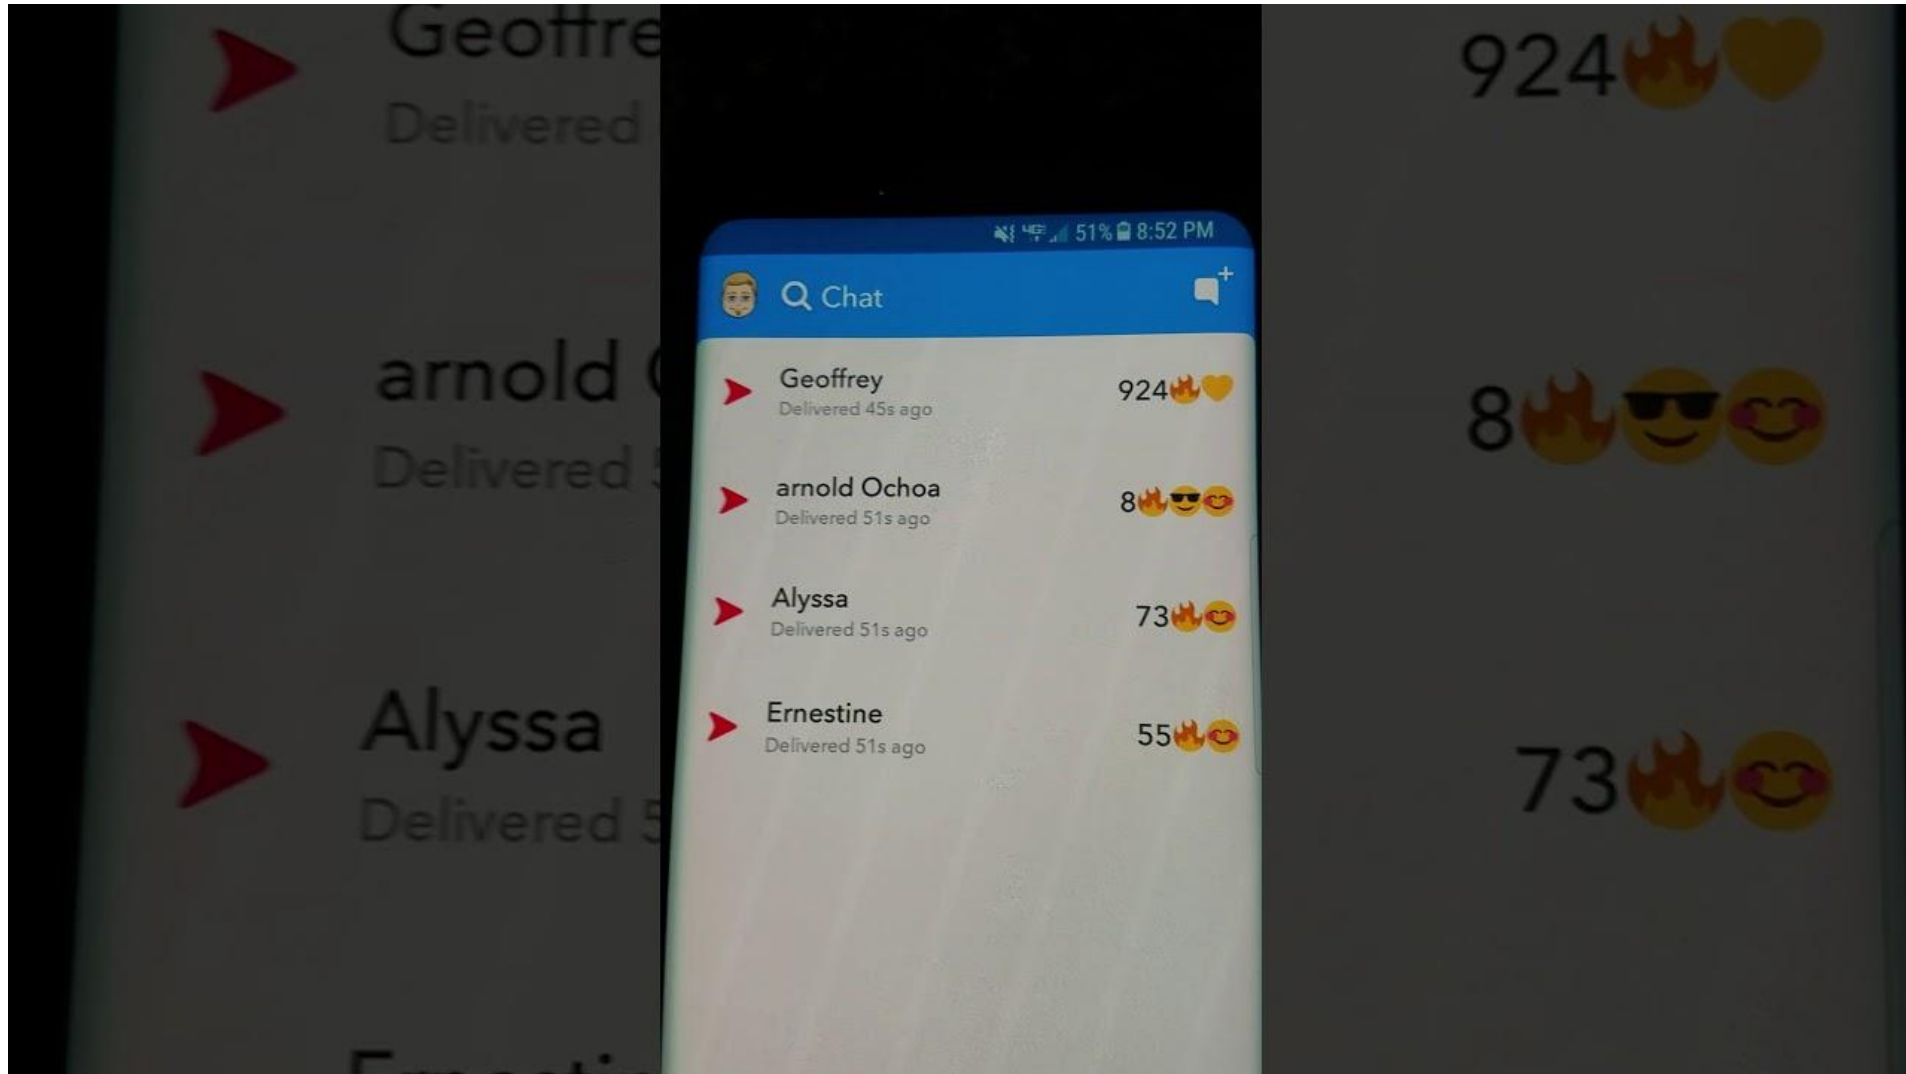

In a little over a year since it was released by a Stanford student
