## Socio-Economic

Veteran Owned Small Business

## Differentiators

CSM International prides itself on the honesty and transparency provided for all of our clientele. We approach every problem case-by-case and provide a solution tailored to the situation. We believe firmly that data security is crucial for any business, and we aim to make that security more accessible.

# SOC as a SERVICE (SOCaaS)

Learn what it is and how you can benefit from it

CSM International offers comprehensive and carefully tailored approaches to digital security in order to meet our clients' specific needs

We operate an innovative, 24/7 Security Operations Center, that employs best in class processes, procedures, and tactics to detect, respond, and deploy offensive countermeasures

## **Quality**

Our analysts all must perform as level III and level IV engineers.

## **Experience**

Our team has performed its duties in highly regulated industries without a single security breach.

## **Cost**

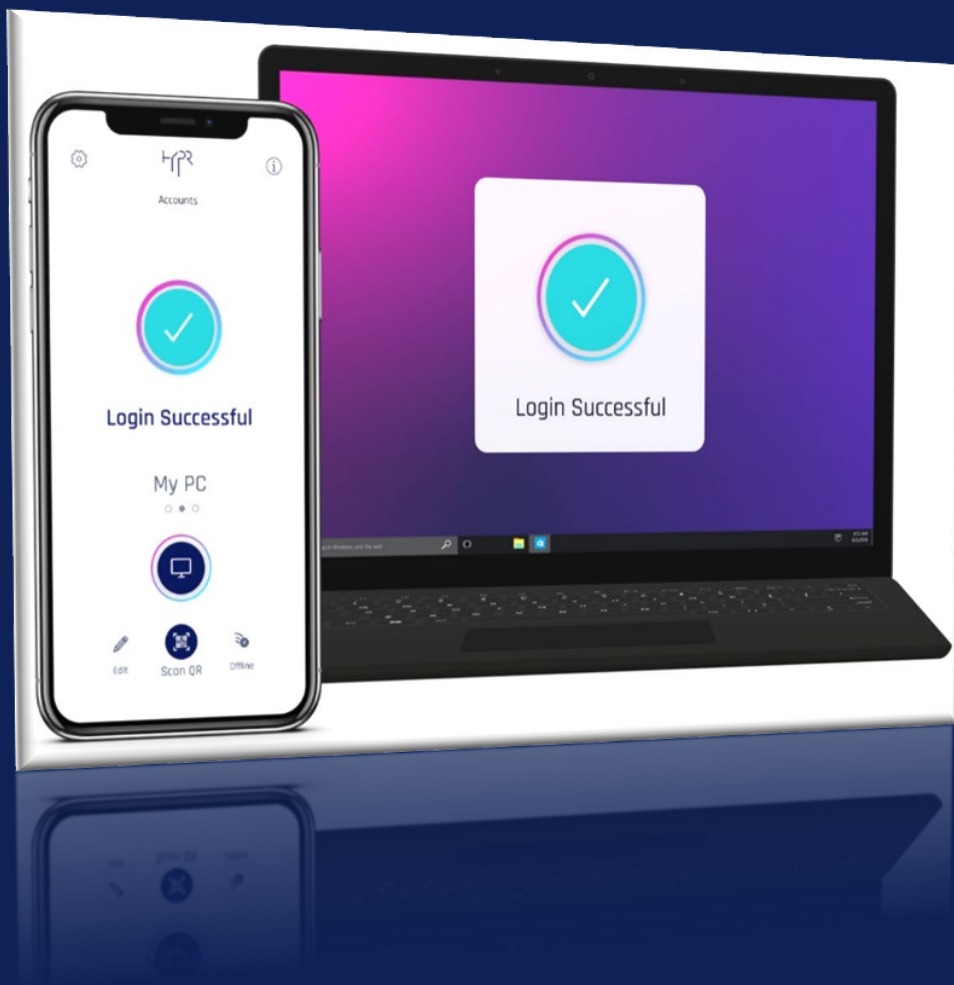

We provide these services at a flexible and transparent cost to meet your needs .

***THE PASSWORDLESS COMPANY***

## MULTIFACTOR AUTHENTICATION

- Solve your Desktop MFA Gap
- Deploy Lightning-Fast Authentication
- Eliminate Passwords for your Customers and Workforce

### **Experience 300% Faster Login Speeds**

- Experience HYPR for Mobile, Web, Desktop and SSO.
- Prevent Phishing and Password Reuse
- Easy to Deploy and Easy to Use

The security of a smart card meets the convenience of a smartphone. Eliminate passwords and enhance employee productivity with HYPR.

### **Turn Your Smartphone into a FIDO Token.**

Your workforce wants ease of use. When you combine the thirst for usability with a familiar and convenient device, you create a security experience that drives MFA adoption and productivity.

HYPR gives your workforce speed so that they can more quickly access resources across the enterprise.

# Work From Home Solution

Our work from home solutions are ideal for businesses that want to maintain consistency in their security plans while their employees work from home. We work closely with our clients to tailor a package specific to their own needs. There is no one size fits all when it comes to cybersecurity.
