THE FIRST  
DECADE  
**516**  
research proposals  
received totaling  
**\$150 million** requested  
for coastal research

The U.S. Coastal Research Program (USCRP) is a collaboration between Federal agencies, academics, & stakeholders which aims to identify research priorities, enhance funding for academic programs, foster collaborations, & promote science translation. The USCRP leads a national effort to coordinate federal activities & align resources to support academic studies addressing the growing needs of coastal communities, ultimately, fostering the nation's workforce.

The program represents a national community of researchers & practitioners with shared passions working together to identify priorities & leverage resources supporting research-to-user objectives. By facilitating partnerships, multi-agency collaborations, & leveraging limited resources, the USCRP increases coastal research impacts & applications, building a community of practice to address societal needs along the coast.

## OUR PARTNERS

# THE FIRST DECADE OF FUNDING 2016-2023

## FUNDING

7

### Funding call opportunities

- Dunes on Developed Coasts
- Storm Processes & Impacts
- Federal Stakeholder Priorities
- Federal Priorities in Long-Term Processes & Estuarine Ecosystems
- Human & Ecosystem Health
- Gaps identified by past projects & Sea Grant partnerships
- Federal priorities in sediment transport

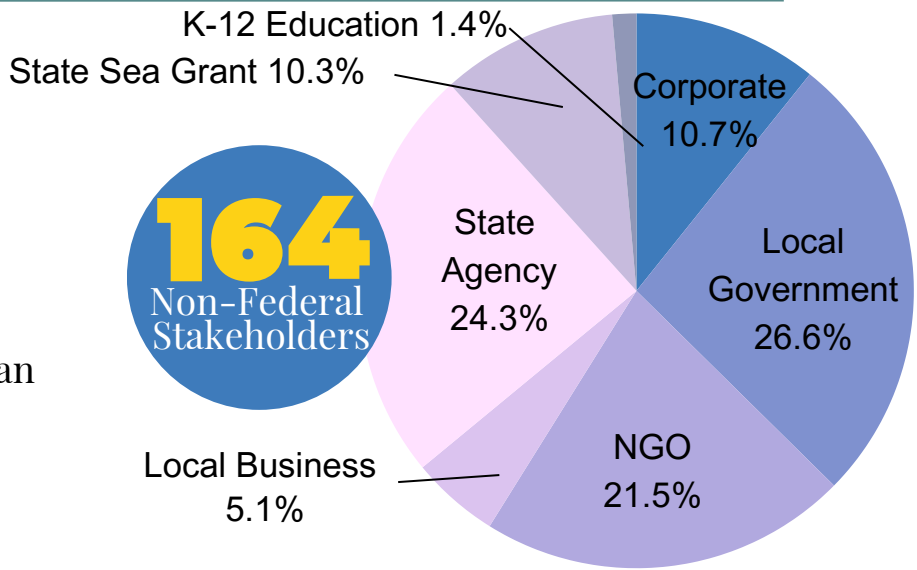

## FEDERAL AGENCIES & STAKEHOLDERS

20

### Federal Agencies Engaged

- BOEM
- DOE
- DOS
- DOT
- EPA
- FEMA
- NASA
- NAVY
- NOAA
- NPS
- NRC
- NRL
- ONR
- USACE
- USGS
- NSF
- Smithsonian
- USDA
- USFWS
- USGOV

# USCRP PROGRAM IMPACT

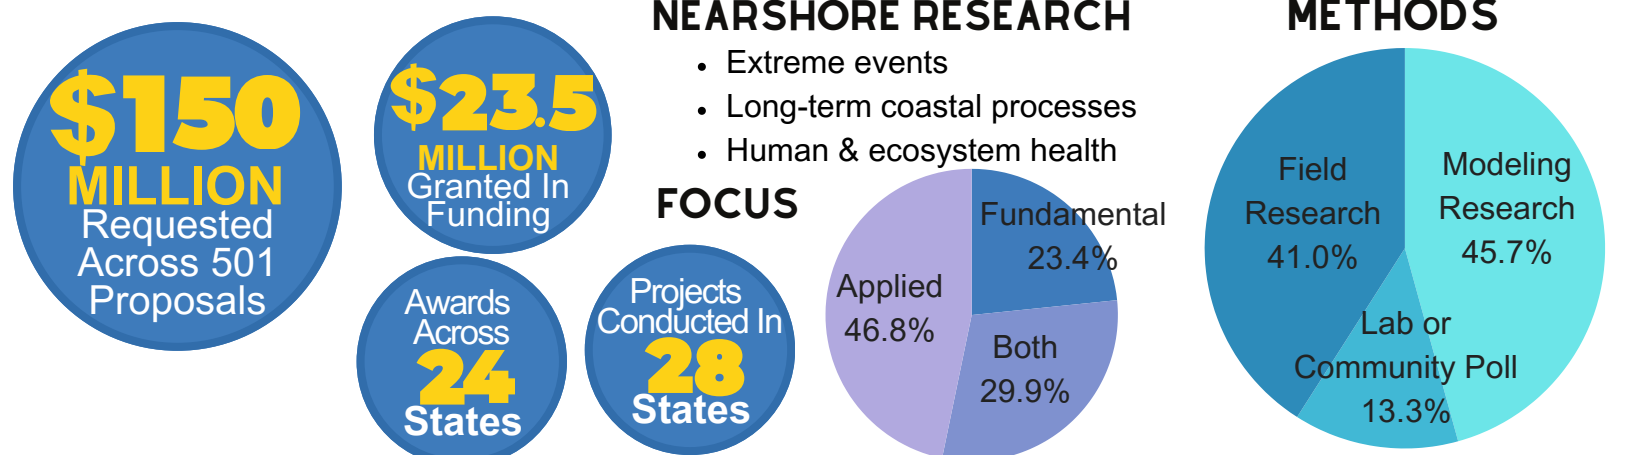

## BY THE NUMBERS: THE FIRST DECADE

The US Coastal Research Program (USCRP) leads a national effort to coordinate federal coastal activities & align resources to support coastal-related academic studies addressing the growing needs of coastal communities, ultimately, fostering the nation's coastal workforce. USCRP explores fundamental, as well as applied, science and engineering questions.

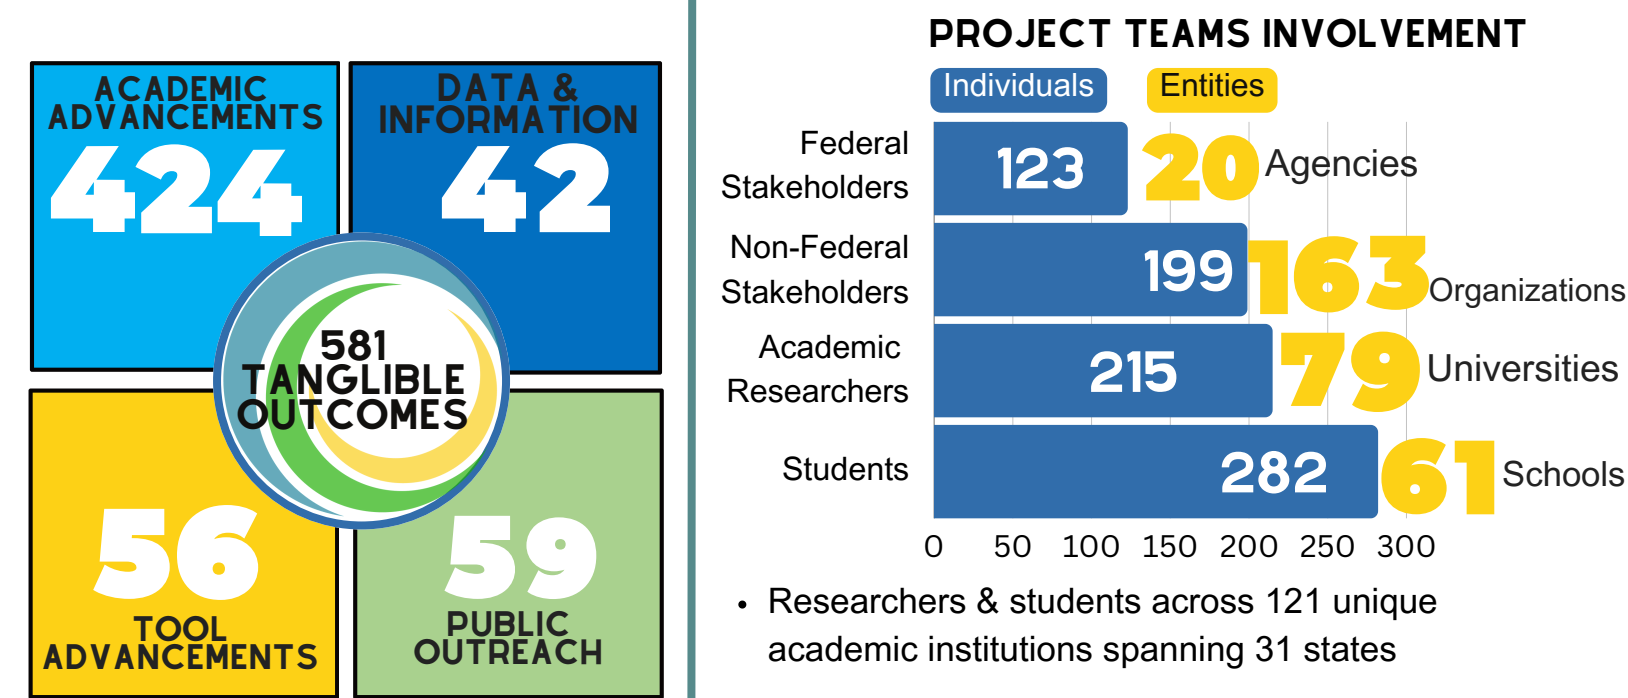

From 2016-2023, **USCRP has funded 77 projects** across seven funding calls. Research teams are comprised of academic researchers, students, Federal partners, & non-federal stakeholders. USCRP defines outcomes as tangible products that can be found & used as resources within four categories: academic advancements, data & information, tool advancements, and public outreach.

*All data herein updated as of May 2024*

### SUPPORTING COASTAL NEEDS

### PROJECT PRODUCTS FOSTERING COLLABORATION

# USCRP OUTCOMES

## BY THE NUMBERS: THE FIRST DECADE

The US Coastal Research Program (USCRP) leads a national effort to coordinate federal coastal activities & align resources to support coastal-related academic studies addressing the growing needs of coastal communities, ultimately, fostering the nation's coastal workforce. USCRP provides scientific knowledge and useful products for coastal communities and the nation.

From 2016-2023, **USCRP has funded 77 projects** across seven funding calls. Research teams are comprised of academic researchers, students, Federal partners, & non-federal stakeholders. USCRP defines outcomes as tangible products that can be found & used as resources within four categories: academic advancements, data & information, tool advancements, and public outreach.

*All data herein updated as of May 2024*

### 581 TANGIBLE OUTCOMES

#### ACADEMIC ADVANCEMENTS: 424

PEER-REVIEWED PUBLICATIONS

**135**

- 41 theses & dissertations across 21 universities
- 94 research articles across 47 journals
  - 8 state of science reviews

TECHNICAL PRESENTATIONS

**289**

- 4 Government briefings
- 140 international meeting presentations across 29 venues
- 145 national meeting presentations across 65 venues

#### DATA & INFORMATION: 42

PUBLIC DATASETS

**32**

- \*All data from USCRP funded projects can be requested from PIs. 32 datasets are already published online such that they need not be requested directly from the PI

REPORTS & REGULATORY

**10**

- 4 technical reports
- 2 community reports
- 2 factsheets
- 2 regulatory documents
  - 1 Federal

#### TOOL ADVANCEMENTS: 56

SOFTWARE

**26**

- 4 software codes, apps, or GUI
- 22 new models or model capabilities developed
  - Many improvements in runtime & accuracy

INNOVATION-TECH & OTHER

**30**

- 17 new methods or metrics
- 13 new instruments
  - 7 Sensors
  - 4 climatic stations
  - 1 new lab

#### PUBLIC OUTREACH: 59

PUBLIC ENGAGEMENT

**46**

- 14 workshops, focus groups, trainings, or briefings
- 8 dedicated websites
- 24 research highlights or newsletter attention

EXTERNAL PUBLICITY

**13**

- 8 news or online articles
- 2 radio broadcasts
- 3 tv coverages

# USCRP FEDERAL PARTNERS

## BY THE NUMBERS: THE FIRST DECADE

The US Coastal Research Program (USCRP) leads a national effort to coordinate federal coastal activities & align resources to support coastal-related academic studies addressing the growing needs of coastal communities, ultimately, fostering the nation's coastal workforce. USCRP works to identify societally relevant research priorities and fundamental knowledge gaps in support of federal priorities.

From 2016-2023, **USCRP has funded 77 projects** across seven funding calls. Research teams are comprised of academic researchers, students, Federal partners, & non-federal stakeholders.

All data herein updated as of May 2024

**123**

Unique Federal Representatives Involved In Projects

- Average of 2 unique representatives per project
- Range of 1-4 agencies involved per research team

**17**

Federal Representatives Involved In Multiple Projects

**77%**

Of Projects Include At Least 1 Federal Representative

### RESEARCH FOCUS

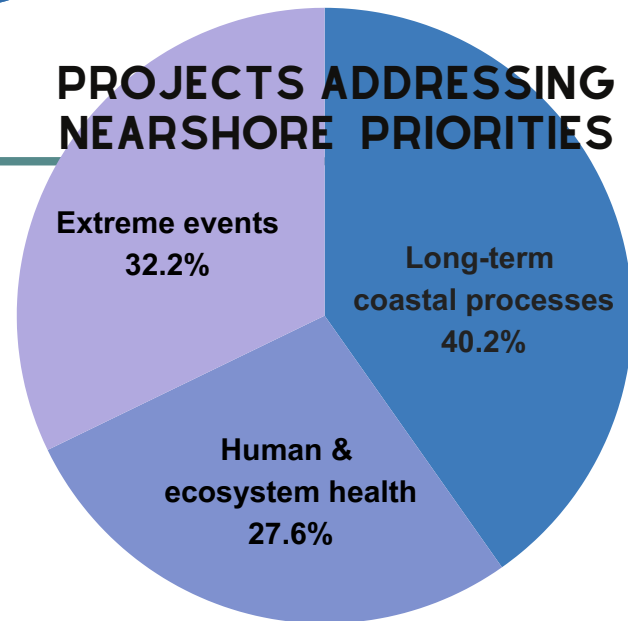

Applied 46.8%  
 Fundamental 23.4%  
 Both 29.9%

## SUPPORTING FEDERAL PRIORITIES

**20**  
Federal Agencies Engaged

- BOEM
- DOE
- DOS
- DOT
- EPA
- FEMA
- NASA
- NAVY
- NOAA
- NPS
- NRC
- NRL
- ONR
- USACE
- USGS
- NSF
- Smithsonian
- USDA
- USFWS
- USGOV

## PROJECTS ADDRESSING NEARSHORE PRIORITIES

## RESEARCH GENERATING USABLE PRODUCTS

New Methodologies or Metrics

**17**

Some methodologies produced have been included or used in Federal materials or projects

New Instruments

**13**

- Sensors
- Labs
- Weather/wave stations

New Software

**26**

- Models: new & improvements
  - Software, apps, & GUI
- improved runtime and/or accuracy

Public datasets

**32**

\*All data from the 77 USCRP funded projects can be requested from PIs

# USCRP STAKEHOLDERS BY THE NUMBERS: THE FIRST DECADE

The US Coastal Research Program (USCRP) leads a national effort to coordinate federal coastal activities & align resources to support coastal-related academic studies addressing the growing needs of coastal communities & fostering the nation's coastal workforce. USCRP translates fundamental science to outcomes that benefit users. From 2016-2023, **USCRP has funded 77 projects** across seven funding calls. Research teams are comprised of academic researchers, students, Federal partners, & non-federal stakeholders.

All data herein updated as of May 2024

Average 4 unique organizations involved per project across the 50 projects with stakeholder involvement

- **Gulf Coast** (22)
  - Alabama
  - Louisiana
  - Mississippi
  - Texas
- **Great Lakes** (9)
  - Michigan
  - Minnesota
  - Pennsylvania
  - Wisconsin
- **Other/Inland** (6)
  - Colorado
  - Tennessee
  - International
- **Northeast** (40)
  - Delaware
  - Maryland
  - New Jersey
  - New York
  - Virginia
- **Southeast** (91)
  - Florida
  - Georgia
  - North Carolina
  - South Carolina
- **West Coast** (37)
  - California
  - Oregon
- **Hawaii & Pacific Islands** (8)
  - Hawaii

(#) each time a unique stakeholder was engaged in a research team

## ORGANIZATIONS BY REGION

State Agency (light blue), NGO (medium blue), Local Government (dark blue)

## STAKEHOLDER SUPPORT

Stakeholders have provided services, staff time, funding, and more to further coastal research. In return they have received:

- Management guidelines
- Decision support
- Improved resilience
- and more (see the impacts & outcomes flyer)

# USCRP ACADEMIA

## BY THE NUMBERS: THE FIRST DECADE

The US Coastal Research Program (USCRP) leads a national effort to coordinate federal coastal activities & align resources to support coastal-related academic studies addressing the growing needs of coastal communities, ultimately, fostering the nation's coastal workforce. USCRP enhances funding opportunities for academic research and fosters collaborative opportunities.

From 2016-2023, **USCRP has funded 77 projects** across seven funding calls. Research teams are comprised of academic researchers, students, Federal partners, & non-federal stakeholders.

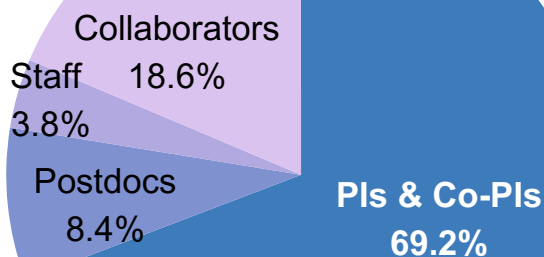

*All data herein updated as of May 2024*

### GRADUATE STUDENTS

79 Master's  
96 PhD

### ACADEMIC RESEARCHERS

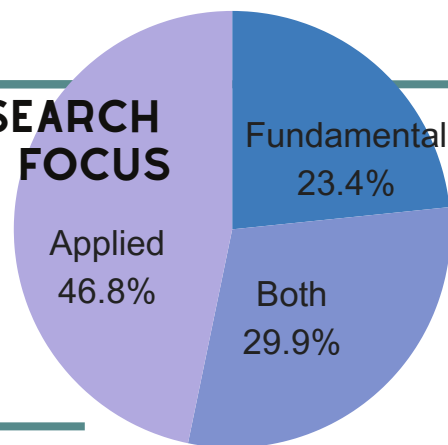

\*7 collaborators from international institutions

## DISCIPLINARY DIVERSITY

- Biology 10.9%
- Chemistry 1.2%
- Economics <1%
- Engineering 37.9%
- Environmental Studies 3.5%
- Geography 2.7%
- Geosciences 10.2%
- Mathematics 2.3%
- Oceanography 16.8%
- Physical Sciences 8.2%
- Policy & Planning 5.1%
- Social Sciences 1.3%

### RESEARCH FOCUS

## TRANSLATING SCIENCE

- 289 technical presentations
  - 136 international & 153 national meetings
- 41 theses & dissertations across 21 universities
- 93 research articles (47 journals, 8 state of science reviews)
