The US Coastal Research Program (USCRP) leads a national effort to coordinate federal coastal activities & align resources to support coastal-related academic studies addressing the growing needs of coastal communities, ultimately, fostering the nation’s coastal workforce. USCRP translates fundamental science to outcomes that benefit users.

In the first five years of funding (2016-2021) **USCRP funded 62 projects** across five funding calls. Research teams are comprised of academic researchers, students, Federal partners, & non-federal stakeholders.

- **38 Projects Including** At Least 1 Non-Federal Stakeholder
- **109 Unique Individuals** Engaged
- **95 Non-Federal Stakeholder Organizations**

Average 3 instances of unique organization involvement per project across the 38 projects with stakeholder involvement

**STAKEHOLDERS Engaged In 15 States**
- **Gulf Coast** (13)
  - Alabama
  - Louisiana
  - Mississippi
  - Texas
- **Great Lakes** (2)
  - Minnesota
  - Pennsylvania
- **Northeast** (22)
  - Delaware
  - Maryland
  - New Jersey
- **Southeast** (50)
  - Florida
  - North Carolina
  - South Carolina
- **West Coast** (28)
  - California
  - Oregon
- **Other/Inland** (4)
  - Tennessee
  - International

(# each time a unique stakeholder was engaged in a research team)

**ORGANIZATIONS BY REGION**

- **Gulf**
  - State Agency
  - NGO
  - Local Government
- **Northeast**
  - State Agency
  - NGO
  - Local Government
- **Southeast**
  - State Agency
  - NGO
  - Local Government
- **West Coast**
  - State Agency
  - NGO
  - Local Government

**STAKEHOLDER SUPPORT**
Stakeholders have provided services, staff time, funding, and more to further coastal research. In return they have received:
- accurate dune construction guidelines
- decision support
- improved resilience
- and more (see the impacts & outcomes flyer)
