

February News in Grade 4

Currently Learning

With the second term well and truly under way, the children are continuing to work hard in class. We have a busy month ahead with lots of exciting things to see and do. The pinnacle of the month will be our snowshoeing trip.

We would also like to thank all of the parents who came in for our Student Led Conferences. The children were very happy to show their hard work to all of you.

Our curriculum focus for the month of February is:

Math converting fractions to decimals, continuing revision of division, time

Language Arts biographies, proper nouns, correct grammar placement (question marks, commas, speech marks)

Religion parables about Jesus, ways to love and honour God

Science matter, energy

Socials exploration of BC by Europeans, learning about the 13 provinces/territories

We hope to have a successful month packed full of learning and fun!
