February Report

Happy Leap Year everyone! 29 Days in February this year!

January was a good month for review and starting new things. In math we reviewed numbers 1-10 and we are starting to write numbers 11-20. We can recognize 2D objects and we are learning about odd and even numbers. In Science we learned about Canadian Geese and other Canadian Woodland animals. During Socials, we have learned about many helpful people in our community. We have also started our home reading program and writing full sentences with phonetic spelling and sight words.

Dates to Remember

Feb. 10- Earthquake Drill
Feb. 12- PJ Day (Bring \$2.00)
Feb 13&14- No School
Feb. 17- No School - Family Day
Feb. 24- Class and Panorama Picture
Feb. 25- Pancake Breakfast (bring \$3.00)
Feb. 26- Ash Wednesday- School Mass and pink shirt day. Wear pink shirts.

Happy Birthday!

Sabine

(Feb. 25)

Mrs. Sorochuk

(Feb. 28)

Reminders

- Please put a dry pair of socks in your child's backpack in case of wet feet.
- If your child is sick, PLEASE make sure they stay home. We don't want to spread any germs to other children (and teachers!)
- Home reading needs to be returned every Monday, Wednesday and Friday. Please read with your child every day.

A Look at This Month...

There is a lot happening for such a short month. We will finish counting our way to 100 day! In math, we are going to start recognizing 3D objects, and learning how to add and subtract numbers. In religion, we will be learning about St. Valentine and have a little Valentine's Day party on Wednesday, February 12th. If your child would like to bring Valentine's Day cards that day, they absolutely can, but please remember to include all students. Also, we are going to start "I Am A Gift From God" Program. Please check your child's backpack regularly for homework that you and your child will need to complete. We are also going to discuss Ash Wednesday and Lent. We will also be learning about penguins and the orca whale and be gearing up for a field trip to the Aquarium!
