It has been known as the game of Noble man and women of high class society. It's a game of rules, strategy, creativity and a bit of luck. With Noble Group we can assure you we might not have invented the rules but we know how to play the game. And we do it with class and power.

History

The earliest record of the board game was originated 600 A.D in India during the Gupta Empire known as 'Chatarung'.

Which later expanded to Persia then the Arab world, then Asia. It was 1000 A.D when it made its way to Europe where it took its modern form and became played amongst Nobles, Lords, and high ranking positions.
