

Signal-Wise: we get the signal right

Sound Viewer

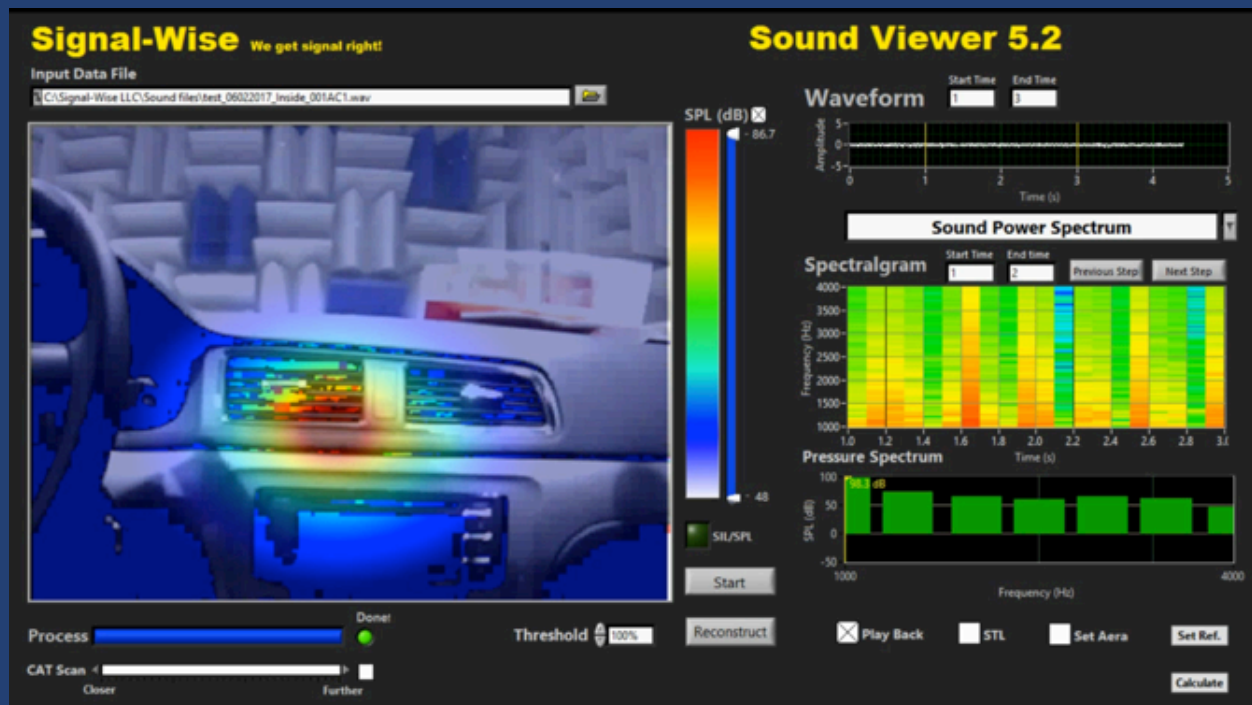

Automobile Interior HVAC

Sound Viewer is capable of handling both airborne and structure-borne sounds, non-stationary and stationary sounds over the frequency range of 20 – 20,000 Hz.

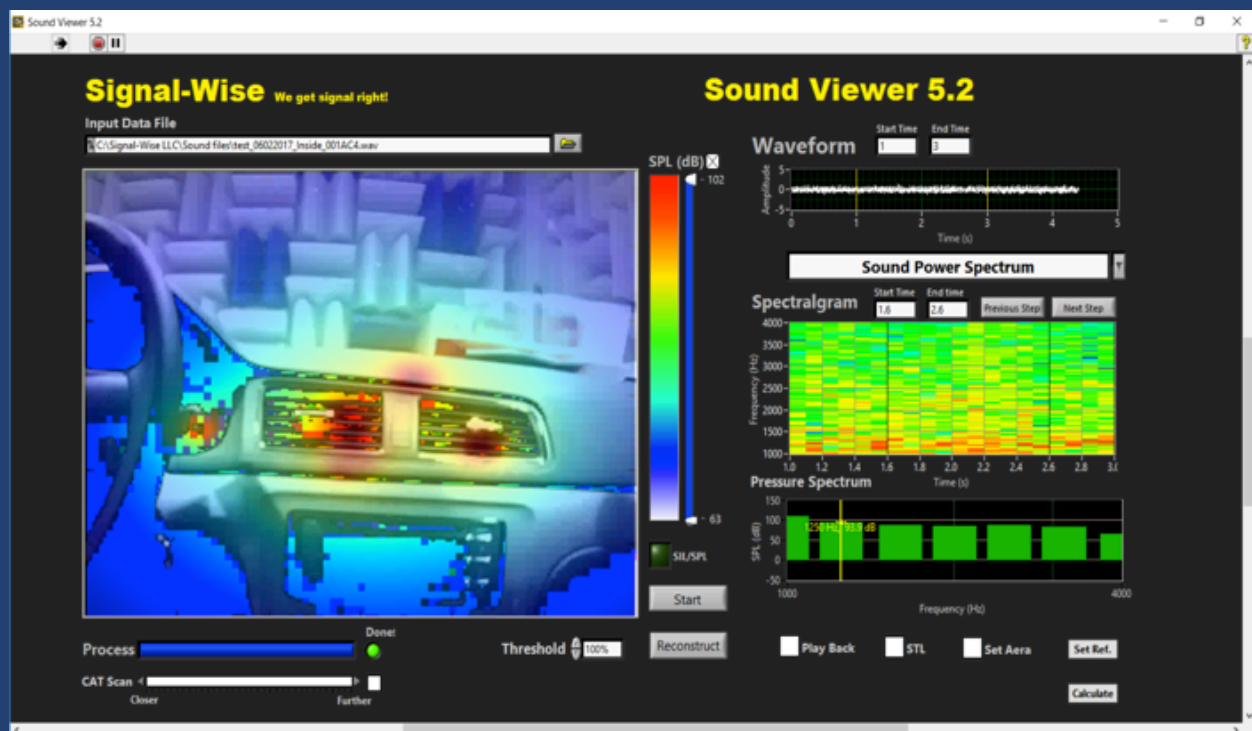

Sound Viewer — A one-of-a-kind comprehensive noise diagnosis and analysis system

Signal-Wise: we get the signal right

Sound Viewer enables one to locate HVAC noise with the fan running at the lowest speed, which was barely noticeable, while the engine was running at the idle speed.

Similarly, Sound Viewer enables one to locate HVAC noise with the fan running at the highest speed, which was very noisy, while the engine was running at the idle speed.
